

November 10, 2011

To: All faculty members and researchers of Sophia University
From: Vice President for Academic Exchange

Integration of “**ReaD**” Researchers’ Database into “**ReaD&Researchmap**”

1. Inauguration of “**ReaD&Researchmap**”

Two public researchers’ databases, “**ReaD**” hosted by the Japan Science and Technology Agency (JST) and “**Researchmap**” hosted by the National Institute of Informatics (NII) have recently been integrated. The “*New System*” called “**ReaD&Researchmap**” started its services in November 2011.

Website of “ ReaD&Researchmap ” ⇒ http://researchmap.jp/

2. Uploading the data to the “*New System*”

Sophia has been uploading the researchers’ data from the database of “Sophia University Researcher Information” to the “**ReaD**” twice a year. Please understand that the data will be uploaded in the same way to the “*New System*” as well.

3. Request to the faculty members and researchers

(1) Data inputs and updates for the “Sophia University Researcher Information”

Please understand that the basic data made open on the “*New System*” come from our university’s database. Please be reminded that inputs and updates of our database are regarded as essential duties of the faculty members and researchers.

Sophia University Researcher Information System

Login address ⇒ <https://librsh01.lib.sophia.ac.jp/>

(2) Updating the data of the “*New System*”

Each user of the “*New System*” may update or change the information thereof with his/her own user ID and password given by the agency. However, the university kindly asks all faculty members and researchers not to do so for some extent of period because this will cause discrepancies between the university’s researcher information and the “*New System*” until the university decides the managing policy on the “*New System*”.

Your understanding and efforts in this matter are highly appreciated.
