

Achieving Food Security, Nutrition and Sustainable Agriculture

Talk by Mr. Jos é Graziano da Silva, Director-General of the Food and Agriculture Organization of the United Nations & Job Seminar

Food security and nutrition is a critical issue that directly affects many human lives, and is the core of the “2030 Agenda for Sustainable Development” which was adopted at the United Nations Summit in September 2015. The Director-General of the Food and Agriculture Organization of the United Nations (FAO), the top UN specialized agency in the field of food and agriculture, will visit Japan this coming May for the first time in four years. Seizing this opportunity, the Director-General will talk in person about FAO’s work towards the achievement of world food security, the eradication of hunger, the achievement of the Sustainable Development Goals (SDGs), as well as FAO’s relationship with Japan. We welcome all students who are interested in development assistance, food security and nutrition issues, as well as those who are interested in a career at United Nations agencies.

Wed, May 10, 2017
11:00 a.m. ~ 12:30 p.m.
(Doors open 10:45 a.m.)
