For all SPSF students

Sophia Program for Sustainable Futures (SPSF) Organization

SPSF consists of the following six departments of social sciences:

Department of Journalism; Department of Education; Department of Sociology;

Department of Economics; Department of Management; and Department of Global Studies

1. SPSF Common Core courses

SPSF students take SPSF Common Core courses. The SPSF Common Core courses are structured into “Theme-based” and “Academic Skills” courses, which are required to be taken by first-and third-year students.

Theme-based courses: Two required courses for the first-and third-year students which cover interrelationships between the discipline the student majors in and the concept of sustainability. The first year’s course focuses on the connections among them, and the third year’s course provides more practical opportunities. These are mandatory courses for all SPSF students in order to meet graduation requirements. No transfer credits are allowed to the two required courses “First Year Lecture in/about Sustainable Futures” and “Third Year Seminar for Sustainable Futures”. For more details, refer to the curriculum pages of General Studies Courses.

Academic Skills courses: First-year students are required to take four courses offered by the Center for Language Education and Research (CLER) to equip themselves with skills necessary for their learning at Sophia University. For more details, refer to the curriculum pages of Language Courses.

In addition to these SPSF Common Courses, the students also take classes relating to their major as well as other classes offered by other SPSF departments.

2. Specialized Education

SPSF students are required to take Specialized Education courses, which are mainly provided by the department the student belongs to. For more details, refer to the curriculum section of each department.

3. When Choosing Courses for Fulfilling SPSF Graduation Requirements

SPSF students must meet their graduation requirements mainly with credits received from SPSF courses taught in English (refer to Distribution of Required Credits).

However, students may include up to 24 credits earned from courses taught in Japanese in their graduation requirements. For more details on each department’s Distribution of Required Credits and Guidelines for Course Registration, refer to the curriculum section of each department. Should you take courses taught in Japanese, see the following instructions 4. and 5. carefully.

4. 24 Credit Limit of Courses Taught in Japanese

The courses include

1) All courses except those offered by CLER:

The instruction language shown in the course numbering should be either “j” or “m”: “j” for classes in Japanese and “m” for the others.

With reference to each course numbering, check the course list in each department which offers the course(s) taught in Japanese on the Academic Handbook (履修要覧 [学部科目編]).

For details of the course numbering, refer to the page on p.24.

2) Courses offered by CLER:

Language courses except for Japanese, Chinese, French and Spanish

Note:

- Notify the Center for Academic Affairs after you took a course with the instruction language “m” but Japanese was not used at all.
- Those who wish to take more than 24 credits of courses taught in Japanese should also report to the Center for Academic Affairs, with an understanding that those exceeding courses will not count toward the graduation requirements.

5. Guidelines for the Level of Taking Courses Taught in Japanese

To register for courses offered in Japanese, a student who is a native speaker of Japanese should have attended more than 10 years of education in which Japanese was the primary language of instruction, or have demonstrated sufficient proficiency in Japanese by being placed in a class with a level higher than JPN343 as a result of taking the Japanese Placement Test administered by the university, or by passing JPN343 (Reading and Writing 3). A non-native speaker of Japanese should have demonstrated sufficient proficiency in Japanese by being placed in a class with a level higher than JPN322 as a result of taking the Japanese Placement Test, or by passing either JPN322 (Advanced Japanese 2) or JPN370 (Intensive Japanese 4).

Students are strongly advised to observe the criteria for Japanese language proficiency in taking courses conducted in Japanese. Students will be responsible for their own academic performance, including any difficulty resulting from issues related to Japanese language proficiency.

6. Limit on the Number of Credits per Semester for all SPSF students

SPSF students can take up to 24 credits in each semester. The following limitations apply to the maximum number of credits that can be registered in each academic semester.

First Year		Second Year		Third Year		Fourth Year		Total
Autumn	Spring	Autumn	Spring	Autumn	Spring	Autumn	Spring	
24	24	24	24	24	24	24	24	192

7. SPSF Early Graduation System

SPSF students can apply for early graduation if they wish to graduate (in six or seven semesters), provided certain requirements are met. The following departments offer the opportunity for early graduation: Department of Education; Department of Sociology; Department of Economics; Department of Management; and Department of Global Studies. For more details on the requirements for early graduation, refer to the curriculum section of each department.

8. Change of Faculty / Department

No change of Faculty / Department within the SPSF Departments is accepted for the time being. For further details, see the page of Academic Records.

GENERAL STUDIES

【Students who entered in 2022】

At Sophia University, University-wide General Studies are designed for students to acquire the abilities necessary for various studies. In addition to learning the spirit of “Christian Humanism” that underlies all Sophia University education, students will cultivate the ability to identify issues, formulate questions, and solve problems from multiple perspectives with a wide range of knowledge. The purpose is to create a foundation for students to continue learning throughout their lives and to contribute to the realization of a better world as people who live “for others, with others.”

University-wide General Studies courses are structured into categories by topics and in multiple levels. The students are expected to take these courses throughout their undergraduate studies in order to expand the depth and the width of their learning.

Compulsory Courses

All the compulsory courses are divided into designated timetables (blocks) for each department. The class and the registration code will be posted on the Loyola Bulletin Board. Check the Board and register by yourself during the registration period. The following five courses are the compulsory General Studies courses.

Studies in Christian Humanism: For Others, With Others Liberal Arts of the Body

Both “Studies in Christian Humanism: For Others, With Others” and “Liberal Arts of the Body” are Quarter courses, and students must take them in designated blocks. Students must check their designated blocks on Loyola Bulletin Board.

Semester Offered	Day & Time
Autumn	Thu, 3

***Liberal Arts of the Body Special Class**

This class is offered on Tuesdays second period in third quarter for students who have difficulty taking the designated “Liberal Arts of the Body” class due to health or other reasons.

Students who wish to take this course should contact the Center for Liberal Education and Learning (Embodied Wisdom Area) before the class begins.

Critical Thinking & Discussion

“Critical Thinking & Discussion” is a semester course. Students must take the course in the designated block.

Semester Offered	Day & Time
Spring	Tue, 4 Fri, 4

Overview of Data Science

“Overview of Data Science” is a semester course. Students must take the course in the designated block.

Semester Offered	Day & Time
Spring	Tue, 5

Thinking about Issues, Perspectives, and Positionality

“Thinking about Issues, Perspectives, and Positionality” is a semester course. Students must take the course in the designated block.

“Thinking about Issues, Perspectives, and Positionality” is an *asynchronous course. The course materials will be uploaded on Moodle every Saturday. Students must enroll themselves in “Issues, Perspectives, and Positionality” on Moodle.

*Asynchronous classes: Classes are delivered in video lectures, slides, or other asynchronous formats.

Semester Offered	Day & Time
Autumn	Sat, 6

***Students who fail to complete the Compulsory Course in the first year**

Students who fail to complete the Compulsory Courses in the first year must take them in the second year or later. The procedure of taking compulsory courses will be announced in the next year’s Bulletin of Information.

Compulsory Elective Courses

Studies in Christian Humanism

Studies in Christian Humanism (Compulsory Elective Courses) must be taken in their third semester.

Course List

Registration CD	Semester offered	Course title	Cr.	Day & Time
GSCH0130	Autumn	STUDIES IN CHRISTIAN HUMANISM: PHILOSOPHY OF RELIGIOUS LANGUAGE	2	Tue, 5
GSCH0051	Autumn	STUDIES IN CHRISTIAN HUMANISM: THE LIGHT OF CHRISTIAN INTRODUCTION TO CATHOLICISM	2	Tue, 5

Please note that places in these courses will be chosen by lottery, so students should register for these courses during the **lottery registration period**. For details, See p.28~.

Advanced General Education Courses

Students must take 4 credits of Advanced General Education Courses including SPSF Common Core (Theme-based) “Third Year Seminar for Sustainable Futures (2cr)”. For the remaining 2 credits, students must choose from the Advanced General Education courses listed in the University-wide General Studies courses in your junior / senior years. (cf.履修要覧)

Notes on Advanced General Education Courses for SPSF Students

All Students must take at least 2 credits of “Advanced General Education Course” as a part of GS Compulsory Electives.

- Students may take the Advanced General Education Course from the fifth semester (ie. their first semester in the junior year).
- If students take more than 2 credits of Advanced General Education Courses, he/she can count these credits as GS Electives courses.
- Most of the Advanced General Education Courses are lottery courses. Students must enter during the lottery entry period.
- For lottery courses of “Advanced General Education Course”, students will not get accepted into more than one course per semester.

【Students who entered before 2022】

Health and Physical Education

Students who have not earned credits for “Wellness, the Body and Culture” must take “Wellness, the Body and Culture” (*Asynchronous course). All courses are lottery courses, so students should register for these courses during the **lottery registration period**. For details, See p.28～.

*Asynchronous classes: Classes that deliver video, Power Point, and other teaching material files.

Semester, Day, Time

Autumn semester Saturday, 6th period

Spring semester: Saturday, 6th period

Students who entered before 2022 may take any of the following semesters.

Studies in Christian Humanism

Two courses in the category “Studies in Christian Humanism” (キリスト教人間学) for a total of 4 credits are compulsory for all students who are enrolled in the SPSF. Normally, students must take one course in their first semester and another in the second semester.

Course List

Registration CD	Semester offered	Course title	Cr.	Day & Time
GSCH0130	Autumn	STUDIES IN CHRISTIAN HUMANISM: PHILOSOPHY OF RELIGIOUS LANGUAGE	2	Tue, 5
GSCH0051	Autumn	STUDIES IN CHRISTIAN HUMANISM: THE LIGHT OF CHRISTIAN INTRODUCTION TO CATHOLICISM	2	Tue, 5

Please note that places in these courses will be chosen by lottery, so students should register for these courses during the **lottery registration period**. For details, See p.28～.

Advanced General Education Courses

Students must take SPSF Common Core (Theme-based) “Third Year Seminar for Sustainable Futures (2cr)” as “Advanced General Education Course”.

【All Students】

General Studies SPSF Common Core (Themed Based)

All SPSF students must take two courses in the category SPSF Common Core (Theme-based), “First Year Lecture in/about Sustainable Futures(4 cr)” and “Third Year Seminar for Sustainable Futures(2cr)”.

The first year theme-based course “First Year Lecture in/about Sustainable Futures” will be given in a lecture format by professors from the six departments in the first semester. Students will see how the topics relating to their own disciplines inter-connect with each other when put together around the theme of “sustainability.”

In their fifth semester of the third year, after they acquired knowledge through courses of their own major and other majors, they take another theme-based course, “Third Year Seminar for Sustainable Futures,” where students will bring in knowledge and perspectives they obtained in their own major and share them with students of other majors.

Please note that the course “Third Year Seminar for Sustainable Futures” is offered to SPSF students as “Advanced General Education Course” which is a part of general requirements for all undergraduate students at Sophia University.

Course List

Registration CD	Semester offered	Course title	Cr.	Day & Time
GSSS1010	Autumn	FIRST YEAR LECTURE IN/ABOUT SUSTAINABLE FUTURES	4	Tue, 2-3
GSSS3010	Autumn	THIRD YEAR SEMINAR FOR SUSTAINABLE FUTURES	2	Thu, 4

【All Students】

General Studies Elective Courses

All SPSF students must take 12 credits of courses(*14 credits for the students who entered before 2022) listed in the University-wide General Studies course as Zengaku kyotsu kamoku (全学共通科目) conducted in Courses taught in English as GS Electives.

Students who wish to take GS Elective courses offered in Japanese* shown in the course numbering should be “j”, consult the Center for Academic Affairs during the registration period.

Note: GS Elective courses taught in Japanese cannot be counted as GS Elective requirements.

Note that only up to 8 credits are approved for courses from Language Programs.(※)

※No more than 24 credits of Courses taught in Japanese in total.

For details regarding Language courses, see p.117, “LANGUAGES (OTHER THAN ENGLISH)”

First-year Students may take up to 4 credits of General Studies Elective Courses each semester.

■SAIMS Program Courses

☆ The Sophia AIMS Program (SAIMS) is a trans-disciplinary program focusing on “Human Development”, and its main theme is “Human Ecology: Diversity and Connectivity of Society and Nature”. Students from ASEAN countries and Japan will study together in a program that combines the disciplinary frameworks of natural sciences, social sciences, and humanities. All courses are conducted in English (TOEFL iBT79 or its equivalent level is required.)

The SAIMS program participants are strongly recommended to take at least one of these courses before or after studying abroad under the SAIMS program.

■Summer Session in East Asian Studies and Japanese Language

Students may take Summer Session in East Asian Studies and Japanese Language courses offered by the Center for Global Education and Discovery. Summer Session courses are not counted into maximum credit limits per semester or year. More information on registration procedures and programs will be posted on the Loyola Bulletin Board (Academic Services) in April 2022.

【All Students】

Advanced General Education Courses

<Students who entered in 2022>

SPSF students who entered in 2022 must take 2 credits of courses listed in the Advanced General Education Courses taught in English as GS Compulsory Electives from their fifth period.

※No more than 24 credits of Courses taught in Japanese in total.

<Students who entered before 2022>

SPSF students who entered before 2022 can take courses listed in the Advanced General Education Courses taught in English as GS Electives from their fifth period.

Students who wish to take Advanced General Education courses offered in Japanese* shown in the course numbering should be “j”, consult the Center for Academic Affairs during the registration period.

Note: Advanced General Education courses taught in Japanese cannot be counted as GS Compulsory Elective / GS Elective requirements.

LANGUAGE

LANGUAGE (SPSF COMMON CORE-ACADEMIC SKILLS)

SPSF Common Core-Academic Skills consists of four courses: Academic Writing 1, Academic Writing 2, Academic Presentations and Critical Thinking and Discussion. These are offered by the Center for Language Education and Research (CLER) located on the 5th Floor in Building 6. All SPSF students are required to take these courses.

● COURSE DESCRIPTIONS

ACADEMIC WRITING 1 (AW1)

In this course, students will develop their academic writing skills using a four skills integrated approach to well-equip them to write essays and research papers for undergraduate classes in English. The course will take a task-based, learning through doing approach to writing, starting from finding and evaluating academic sources and developing research questions, through to editing and discussing written work in seminar-style classes. Students will write about topics related to modern society in Japan which interest them. Classes will consist of input on academic writing skills from the teacher, in-class writing exercises and practice, teacher and peer feedback on students' written work, and presentation and discussion of students' assignments.

ACADEMIC WRITING 2 (AW2)

This course will build on and further develop the academic writing skills learned in Academic Writing 1. Students will undertake a research project involving some original research which culminates in a research paper. This project will also require students to draw from more academic sources and have a focus on critique as well as summary or description. They will also have greater freedom to choose topics related to their own studies or interests.

ACADEMIC PRESENTATIONS

In this course, students will build their confidence in speaking in front of others and develop key presentation skills. Students will begin to develop their skills by making presentations on their own personal and academic interests. As the semester progresses, students will develop more advanced academic presentation skills by giving poster presentations, and by giving presentations at a mock academic conference on the theme of Japanese society, for which students can utilize their research from Academic Writing 1. As well as input from the teacher there will be extensive practice of presentation skills and active observation of other students' presentations.

CRITICAL THINKING & DISCUSSION

In this course, students will develop the critical thinking skills they need to perform well academically as undergraduates and beyond. They will learn key terms and concepts in critical thinking and practice applying those by closely examining a variety of texts on which they will write short summaries or reactions. Through this process, students will also reflect on their own thinking processes and skills. Most in-class work will be based around discussions of the various texts and topics, with input and guidance from the teacher on academic discussion skills. Students will also learn how to demonstrate their critical thinking skills in these discussions.

● REGISTRATION RULES

ACADEMIC WRITING 1 (AW1) / ACADEMIC WRITING 2 (AW2)

- ACADEMIC WRITING must be taken in the following sequence:

- * Students cannot register for the next course if they have not completed the previous course. (If students have not completed AW1, they cannot register for AW2. If they are not able to fulfill the course requirements, they will re-register for AW1 in the following Autumn semester.)
- * Students cannot register for the same course which they have already completed.
- Students must take all courses and gain 4 credits. (2 credits / course)
- ACADEMIC WRITING is counted as a SPSF Common Core (Academic Skills) course.
- No withdrawals are allowed for these courses.
- Students should register for these courses during the registration period. Students are required to take designated classes.

ACADEMIC PRESENTATIONS (Autumn)

- ACADEMIC PRESENTATIONS is counted as a SPSF Common Core (Academic Skills) course.
- No withdrawals are allowed for these courses.
- Students should register for these courses during the registration period. Students are required to take designated classes.
- Students can register for ACADEMIC PRESENTATIONS and CRITICAL THINKING & DISCUSSION in the order that they wish.

CRITICAL THINKING & DISCUSSION (Spring)

- CRITICAL THINKING & DISCUSSION is counted as a SPSF Common Core (Academic Skills) course for the students who entered in and before 2021.
- For the students who entered in and after 2022, CRITICAL THINKING & DISCUSSION is counted as a GS Compulsory Course (The Art of Thinking and Express).
- No withdrawals are allowed for these courses.
- Students should register for these courses during the registration period. Students are required to take designated classes.
- Students can register for ACADEMIC PRESENTATIONS and CRITICAL THINKING & DISCUSSION in the order that they wish.

As for the attendance rules, see ATTENDANCE POLICY FOR LANGUAGE COURSES on p.120.

For any detail of designated classes, please check Loyola Bulletin Board (Language courses • LLC), at the beginning of each semester. The announcement will be done by April 7th (Thu) in the Spring semester and by September 22nd (Thu) in the Autumn semester. This is also the case with repeaters (i.e. those students who have been absent from any semester and have studied abroad).

LANGUAGES (OTHER THAN ENGLISH)

● **FOREIGN LANGUAGES**

Language courses are offered by the Center for Language Education and Research (CLER) located on the 5th Floor in Building 6. English being the medium of instruction for SPSF students, students are reminded that English does not fall into the category of foreign languages.

Within SPSF, there are different rules and registration procedures for foreign languages between Department of Journalism and others. Also, the SPSF students are strongly encouraged to take Language Courses counted as “Courses taught in English” such as Chinese, French, Spanish or Japanese by the CLER. Students should check carefully the contents written in parentheses in the texts below in bold.

● **(A NOTE TO JOURNALISM STUDENTS ONLY)**

LANGUAGE REQUIREMENT FOR GRADUATION

First of all, Journalism students must choose a language in order to fulfill the language requirement of Specialized Education (SE), Compulsory Elective courses. Students must earn 8 credits in ONE language selected from the Language Courses counted as “Courses taught in English” such as Chinese, French, Spanish or Japanese by the CLER.

When students have chosen the language to fulfill their language requirement, they will need to register the language on Loyola. Please refer to pages on the “Registration for fulfilling language requirements” in “Course Registration Quick Navi for 2022”.

If the language students selected is a lottery course, students will be able to apply for lottery entry after completing the “Registration for fulfilling language requirements”. To take lottery courses, students must apply for the courses during the Lottery entry of each semester.

In principle, no withdrawals are allowed for language courses taken to fulfill the 8-credit language requirement. Once students withdraw from such a class, they will not be allowed to choose that language to fulfill the language requirement. Withdrawal is allowed for language taken under the category of GS or SE Electives.

Students taking Chinese, French or Spanish starting at a higher level may take advanced level courses repeatedly to fulfill the 8-credit language requirement, as long as the advanced level courses are taught by different teachers. However, 2 credit advanced courses (Advanced [Integrated Skills] A to D) cannot be taken more than once.

Students who choose a language they have studied previously and placed at an advanced level may encounter difficulties in completing the required 8 credits in one language.

For students wishing to take language courses exceeding the 8 credits required in the category of Specialized Education (SE), Compulsory Elective courses, up to 8 credits from language courses can be included in their graduation requirements as Elective courses that fall under the category of General Studies courses (GS).

Journalism students can also include language courses into their Elective courses in Specialized Education courses (SE). Please check the chart below for details.

Be sure to see the “(For all the SPSF students) Important rules for Language courses”.

Department		Category	Required Credits	Maximum Credits	Language Courses counted as "Courses taught in English"				Language Courses counted as "Courses taught in Japanese"

● (FOR ALL THE SPSF STUDENTS EXCEPT FOR JOURNALISM STUDENTS)
LANGUAGE REQUIREMENT FOR GRADUATION

For students wishing to take Japanese or any other language courses, up to 8 credits from language courses can be included in their graduation requirements as Elective courses in General Studies (GS).

For departments that allow students to include language courses into their Elective courses in Specialized Education (SE), Japanese or other language courses can be also included into their SE up to the number of credits stipulated by the departments. Please check the chart below for details. SPSF Students are recommended to take language courses counted as “Courses taught in English”.

<SPSF Language Courses>

● (FOR ALL THE SPSF STUDENTS) IMPORTANT RULES FOR LANGUAGE COURSES

“First foreign language” refers to a language other than English and Japanese that students study at the university for the first time. Thus, when students have either studied or used the particular language prior to the enrollment of the course and their proficiency in the language exceeds the course goals and learning objectives, students will not be able to register for the course. If students register without permission for a course which does not match their ability, the registration will be terminated even during the semester.

Under the following circumstances listed below, students who wish to register for a particular language course must apply for a “Placement Test” (refer to p.119 - 120) in order to be placed into a course appropriate to their proficiency. The “Placement Test” will be held at the beginning of each semester. Students who fail to take the test will not be able to register for the language course during that particular semester. For information on language courses that do not hold the “Placement Test” (Russian, Portuguese, Latin, Asian and African Languages), be sure to check the information posted on the Loyola University Bulletin Board “Language Courses • LLC” before the course registration period of each semester.

This applies to students who have:

- studied the language before enrolling in university
- a family member who is a speaker of the language, and they are exposed to the language on a daily basis
- either lived or studied in a place where the language is used
- have experience of using the language for reasons not stated above

- Students are allowed to take up to 2 credits per language each semester. This limitation does not apply to advanced courses, optional courses, Short-term Language Programs during spring/summer vacation and Japanese offered by the CLER.
- The chosen language must be taken in the correct sequence. (Russian, Portuguese, Latin, Asian and African Languages courses start from the spring semester.)
- In principle, language courses cannot be taken repeatedly unless otherwise mentioned. Chinese, French, Spanish, German, Italian and Korean 1 credit advanced courses (上級科目 Advanced A to H or A to P) can be taken repeatedly as long as the courses are taught by different teachers. However, 2 credits advanced courses (Advanced [Integrated Skills] A to D) cannot be taken more than once.

- When students take advanced courses, they can start from any advanced courses.
- For lottery courses, lottery entry is available only for journalism students taking language courses as the Specialized Education (SE), Compulsory Elective courses. All the SPSF students who wish to study a language course as GS or SE Electives, may register for any available courses from the lottery registration period (first-come-first-served basis). For details, please refer to the p.28 about course registration procedure and schedule.
- As the number of “Advanced” courses is limited, students who wish to take courses at this level may experience conflicts in their class schedule, which may prevent them from earning enough credits necessary for graduation. Be sure to plan which courses you are going to take, referring to the chart in the Bulletin that shows the required number of credits for graduation.

● COURSE REGISTRATION FOR CHINESE, FRENCH, and SPANISH

- For basic and intermediate courses, students should take courses offered for SPSF and FLA students and should not take courses offered for students in other departments. Advanced courses are offered for students of all faculties.
 - Except for Chinese, students have the option of taking 1 credit advanced courses (上級科目 Advanced A to H or A to P) in addition to 2 credits advanced courses (Advanced [Integrated Skills] A to D). Please refer to the pages on the *Gogaku Kamoku* (語学科目) in “2022 Academic Handbook (2022 年度履修要覧 [学部科目編] /2022 *Rishū Yōran*)” for more information.
- *As for Chinese, only 1 credit advanced courses are offered.

● COURSE REGISTRATION FOR JAPANESE LANGUAGE COURSES

Students who wish to take Japanese language courses should take the “Japanese Placement Test” offered by CLER to determine their Japanese language level. Students who have never studied Japanese do not need to take the test, but must submit the application form for JPN111 (JAPANESE 1) to CLER office by the deadline. For details regarding the Japanese language program and course registration for Japanese, please refer to “Japanese Language Program” brochure issued by CLER. Also check Loyola University Bulletin Board “Language courses • LLC” for course registration.

● COURSE REGISTRATION FOR OTHER LANGUAGES

Please refer to the pages on the *Gogaku Kamoku* (語学科目) in “2022 Academic Handbook (2022 年度履修要覧 [学部科目編] /2022 *Rishū Yōran*)” for more information.

Most German, Italian and Korean language courses are lottery courses. If students wish to register for the lottery courses as Elective courses, they can register the course from the lottery registration period (first-come-first served basis). The registration period and block which students can register for will differ, according to the students’ year and their category. For details, please refer to the pages on the *Gogaku Kamoku* (語学科目) in “2022 Academic Handbook (2022 年度履修要覧 [学部科目編] /2022 *Rishū Yōran*)”.

● PLACEMENT AT HIGHER LANGUAGE LEVEL

- Chinese, French, Spanish German, Italian, Korean
- Students who have previously studied or used the language of the course they are registering for must take a Placement Test. If they have studied the language in a Short-term Language Program during spring/summer vacation and wish to take a language course at a higher level, they must also take a Placement Test. As the number of “Advanced” courses is limited, students who wish to take courses at this level may experience conflicts in their class schedule, which may prevent them from earning enough credits necessary for graduation. Students should make sure to confirm the language credits necessary for graduation and plan accordingly.

● Take a Placement Test

- The Placement Test will be conducted at the beginning of each semester. Students must take a course at the level they were placed in as a result of the test.
- The information for the Placement Test will be posted on the Loyola University Bulletin Board “Language courses • LLC” before the course registration period of each semester.
- How the test will be conducted will differ depending on the language the students take.
- Once students are placed in a level after the test, they are not able to change the level. Also, students may not take a Placement Test with the purpose of being placed in a level lower than the current level.

- Russian, Portuguese, Latin, Asian and African Languages

Students who have studied or used the language prior to enrollment must refer to the information posted on the Loyola University Bulletin Board “Language courses • LLC” before the course registration period of each semester. With permission from the instructor in charge of the course, students may enroll in the intermediate or advanced level course. Students who have obtained permission to take intermediate or advanced level course must visit the Center for Academic Affairs during the registration period. The number of courses offered for some languages in the intermediate and advanced levels may not amount to the required number of credits for graduation, so students should make sure to check the corresponding language section for information on the number of credits offered. If students’ proficiency in the language exceeds the course goals and learning objectives, students will not be able to register for the course.

● OPTIONAL COURSES

(Language and Culture courses (ことばと文化), Seminar courses (演習) and Kentei Taisaku courses(検定対策))

- Optional Courses for Chinese, French, Spanish, German, Italian and Korean can be counted as GS Electives up to 8 credits. For departments which allow students to include language courses into their SE Electives, students can include optional courses into their SE Electives up to the number of credits stipulated by the departments. To take the above optional courses for Chinese, French, and Spanish, students are required to take a placement test at the beginning of the semester.
- For more information, please refer to the pages on the *Gogaku Kamoku* (語学科目) in “2022 Academic Handbook (2022年度履修要覧 [学部科目編])”.

● ATTENDANCE POLICY FOR LANGUAGE COURSES

NOTE: Attendance rules may be changed if the class format changes due to the spread of the new coronavirus infection.

After registering for courses be sure to check the guidance from the Language Education and Research Center on the Loyola University Bulletin Board “Language courses • LLC” before the start of the class.

In language courses offered by CLER, students are required to attend the following number of classes as listed below. Class attendance is essential for students’ learning and is considered a minimum condition for gaining credits for the course. A final grade will be considered based on the evaluation criteria stated in the syllabus of each course, only if the number of required attendance has been met. Meeting the attendance requirement does not guarantee passing course units. The number of required attendance is a minimum condition and any absences and/or tardies will affect the students’ grade.

Attendance will be counted from the first class meeting. When students attend a class in the first week but decide to withdraw from the course and register to a course with a different registration code, the attendance from the previous course(s) will not be transferred to the newly registered course.

CLER does not allow absences except for the “Special Consideration” cases described below. Therefore, job hunting, any events related to seminar or extracurricular activities, transportation delays and bereavement leaves are not included. Students should attend classes regularly in case of any sudden illness or any reasons other than the “Special Consideration” cases.

***For Attendance Policy of Japanese Language Courses, please refer to the “Japanese Language Program” brochure.**

• Twice-a-week courses

Total number of class sessions: **28 per semester**

Number of attendance required: At least 23 per semester

• Once-a-week courses

Total number of class sessions: **14 per semester**

Number of attendance required: At least 11 per semester

- Special Consideration

In any of the following conditions, neither your attendance nor absence will be counted. If applicable, please ask your instructor if you can receive this special treatment.

For up to three weeks, the special treatment will apply. As for the period of absence that goes beyond three weeks, regardless of the reasons you may have, the special treatment will not apply. In addition, if the absence is due to more than two circumstances stated below and exceeds three weeks, special consideration will not cover those additional days. Please ask your instructor about the required number of attendance when the special consideration is granted. If your instructor gives you an assignment to make up for your absence, the submission of the assignment becomes the prerequisite for receiving the special consideration.

1. A case of illness or injury where you submit a medical certificate indicating the necessary period of sick or injury leave. (*1)
2. When you join the annual Jo-Nan competition and submit an official certificate of participation.
3. When you have been officially assigned to be a lay judge (裁判員/Saiban In/) and must assume the duty.
4. When you submit a certificate that confirms your attendance at teaching practice, volunteer experience study (介護等体験/Kaigotou Taiken/), or museum practice (館務実習/Kanmu Jisshu).

(*1) If you have chronic medical conditions and cannot specify periods of sickness or injury leave, you should consult CLER Office (Floor 5, Bldg. 6) in advance. The deadline for informing the office is:

Friday, April 29 (Spring Semester) / Friday, October 14 (Autumn Semester)

- Late Arrival

Any students who fail to arrive within the first 30 minutes of a class will be regarded as being absent, even if he/she attends the rest of the class.

[] = Lottery Course. Number in brackets is the capacity

Instructor's name with * = adjunct instructor

① = Offered every other year

② = Inclass lottery may be held in the first class. Details to be given on the syllabus.

For descriptions of the courses listed above, please refer to course syllabi on Loyola.

JAPANESE LANGUAGE PROGRAM (JLP)

The Center for Language Education and Research (CLER) offers multiple tracks and levels of Japanese language courses. The type of course a student initially enrolls in will depend on his/her language background. Placement into the JLP will be determined by a placement test. Students should consult the CLER about the Japanese Placement Test. Further information about the JLP can be found in the brochure “Japanese Language Program.”

※1: Please see the JPT result and timetable on Loyola.

★ These courses can be counted as Electives only.

★★ These courses are offered during Summer / Spring vacation.

For descriptions of the courses listed above, please refer to course syllabi on Loyola.

Department of Journalism SPSF Curriculum

Education and Research Objectives

To study the social roles, functions and influences of all aspects of journalism and media communication, and investigate a broad range of problems in news reporting and media.

Human Resource Development Objectives

To produce graduates well-versed in the types of communication required of a fully-fledged member of society, with advanced communicative skills and media literacy.

Diploma policy

The Department of Journalism sets standards for the skills and knowledge students should acquire before graduation as follows. Those who fulfill the graduation requirements shall be deemed to have acquired these qualities and will be awarded a diploma.

1. Accumulation of academic knowledge of the various disciplines of journalism, media communications, information, etc. and the practical skills to engage in research, analysis, critical thinking, structuring and presentation based on such knowledge.
2. The ability to learn from both dimensions of “theory and practice and to be a leading player in journalism or other fields that deal with media communications and information
3. High-level communication skills and media literacy to live the informatizing modern world

In addition to the above, the SPSF course sets the following abilities which students should acquire before graduation as common requirements across its six departments (Department of Journalism, Department of Education, Department of Sociology, Department of Economics, Department of Management, Department of Global Studies).

4. The ability to learn the basic knowledge on “Sustainable Futures,” to understand its importance, and to take action towards resolving challenges to the sustainable futures by drawing upon their academic discipline as well as from the other five disciplines in the SPSF course they learn.
5. The ability to understand and apply the interdisciplinary perspectives and methodologies, learned in their academic discipline and in the other five disciplines of the SPSF course, when addressing issues and presenting their ideas.

Curriculum policy

In accordance with the Diploma Policy, the Department of Journalism constructs its curriculum with courses aligned to the following purposes:

1. To have students study the fields of journalism, media communication and information taking a theoretical approach, media-specific approach, international approach, and realistic problem analysis approach.
2. To achieve a “broad education that is biased to neither theory nor practice” by balancing the abovementioned curriculum with a practical approach aimed at improving such expressive skills, verification skills and critical skills
3. To nurture critical perspectives, research and analytical skills, and ethics in small-group education, by enrolling all students in individual seminars taught by full-time faculty members.
4. To require students to compile a thesis under the individual guidance of a full-time faculty member as a culmination of the knowledge, analytical skills and other skills acquired during the four years of enrollment.

In addition to the above, the SPSF course constructs its curriculum in the following manner, for the purpose of achieving the common diploma policy across the six departments:

5. To enable the students during the first year to acquire a basic knowledge on “Sustainable Futures” and the relating issues through the SPSF General Studies Courses, drawing on the perspectives of six disciplines. Based on the acquired knowledge, the students will be able to deepen their understanding in various challenges related to the sustainable futures through Elective Courses in the University-wide General Studies Courses, and they will be also able to learn about the approaches, contents, and methodologies of the different disciplines through

Specialized Courses offered by each department.

6. To enable students to gradually gain knowledge of the different disciplines of each Department and also acquire a wide range of knowledge through the courses offered by other faculties and departments which have been designated to offer Elective Compulsory Courses or Elective Courses. Thus, the students will be able to acquire the various perspectives, contents, and methodologies, as well as comprehensive approaches from the courses.

1. Courses and Minimum Number of Credits Required for Graduation

【For students who entered in 2022】

General Studies (Zengaku Kyotsu Kamoku)

Compulsory: 8 credits (Studies in Christian Humanism: For Others, With Others, Liberal Arts of the Body: 1 Credit, Critical Thinking & Discussion, Overview of Data Science, Thinking about Issues, Perspectives and Positionality: 2 Credits)

Compulsory electives: 6 credits (Studies in Christian Humanism: 2 Credits, Advanced General Education Courses: 4 Credits (including SPSF Common Core: Theme Based "Third Year Seminar for Sustainable Futures" 2 credits)

Electives: 12 credits
(including SPSF Common Core: Theme Based "First Year Lecture in/about Sustainable Futures" 4 credits)

Language

Compulsory: 4 credits (SPSF Common Core: Academic Writing 1&2)

Specialized Education (Gakka Kamoku)

Compulsory: 14 credits

Electives: 80 credits (including SPSF Common Core: Academic Skills 2 credits)

Total: 124 credits are required for graduation.

【For students who entered in 2021】

General Studies (Zengaku Kyotsu Kamoku)

Compulsory: 2 credits (Health and Physical Education: 2 credits)

Compulsory electives: 4 credits (Studies in Christian Humanism)

Electives: 20 credits
(including SPSF Common Core: Theme Based "First Year Lecture in/about Sustainable Futures", "Third Year Seminar for Sustainable Futures (Advanced General Education course) " 6 credits)

Language

Compulsory: 4 credits (SPSF Common Core: Academic Writing 1&2)

Specialized Education (Gakka Kamoku)

Compulsory: 14 credits

Electives: 80 credits (including SPSF Common Core: Academic Skills 4 credits)

Total: 124 credits are required for graduation.

2. Distribution of Required Credits

Please see page 127.

3. Guidelines for Course Registration

- ① For general information for SPSF students, refer to the "For all SPSF students" page on p.104.
- ② For General Studies information, refer to the "General Studies" page on p.106.
- ③ For Language courses information, refer to the "Language" page on p.115.
- ④ Students are required to write their bachelor's thesis in accordance with the guidance of their supervisor.
- ⑤ Information on Department of Journalism Specialized Education

1. Refer to the "Student Year" column in the Specialized Education Courses (p.129) for the year in which you can take each course. If the student does not satisfy the "Student Year", the course cannot be taken in other departments or the Department of Journalism.
2. If a student earns more than 26 credits in Compulsory Elective courses, they will be regarded as SE Electives in the Department of Journalism and counted towards graduation requirements.
3. Some SE courses offer the same content in English and Japanese. Students can only take one or the other. For details, refer to the Course list for the Department of Journalism on p.184 in the remarks.
4. Up to 12 credits of Compulsory Elective courses in the Japanese Track can be applied towards graduation requirements as SE Compulsory Electives.
Note: Students can take a maximum of 24 credits for the courses in the Japanese Track.
5. Up to 12 credits of courses from other departments (excluding language courses) and Course(s) for Teacher & Curator Certification, with course numbers starting with 62, except "Teaching Practice 1, 2, 3 (教育実習 1、2、3)" and "Museum Curator Field Work 1, 2 (博物館実習 1、2)" can be applied towards graduation requirements as SE Electives. Students should consult with the instructor in charge of the seminar before selecting courses.
6. Up to 12 credits of General Studies, excluding "Compulsory" and "SPSF Common Core (Theme Based)", can be applied towards graduation requirements as SE Electives in the Department of Journalism.
7. As for 5) and 6) above, note that only a total of 12 credits can be applied towards graduation requirements.

⑥ Course Numbering

Numbering shown in the list of assigned courses refer to the following. For information about numbering, refer to p.24.

Field (alphabets)	Field (English)
JRN	Journalism

Department of Education SPSF Curriculum

Education and Research Objectives

The Department of Education aims to explore and understand various issues and problems relating to education and human development using comprehensive and multi-faceted approaches grounded in the discipline of education studies, and to enhance education that values human dignity.

Human Resource Development Objectives

The goals of teaching at the Department of Education are to prepare future educators and researchers with outstanding expertise and human qualities founded on respect for human dignity, and to educate the next generation of global and autonomous citizens with a broad knowledge of educational studies.

Diploma policy

The Department of Education sets standards for the competencies students should acquire before graduation. Those who fulfill the graduation requirements described below shall be deemed to have acquired these qualities and will be awarded a diploma.

1. The ability to understand what it means to consider various issues relating to education and human development from the perspective of educational studies as an academic discipline, and to envision educational practices respectful of human dignity. This requires students to have acquired a broad knowledge of educational studies and other relevant studies.
2. The ability to analyze and understand educational practices, phenomena and issues in schools, households, companies and society at large, using the knowledge and methodologies of educational studies informed by philosophy, history, sociology and psychology, as well as to comprehensively and multifacetedly explore pathways to realize education respectful of human dignity, and present their ideas clearly.
3. The ability to actively and respectfully collaborate with people from diverse backgrounds to solve educational problems, and achieving – through constant self-reflection – an education founded on respect for human dignity and imbued with an international perspective.

In addition to the above, the SPSF course sets the following abilities which students should acquire before graduation as common requirements across its six departments (Department of Journalism, Department of Education, Department of Sociology, Department of Economics, Department of Management, Department of Global Studies).

4. The ability to learn the basic knowledge on “Sustainable Futures,” to understand its importance, and to take action towards resolving challenges to the sustainable futures by drawing upon their academic discipline as well as from the other five disciplines in the SPSF course they learn.
5. The ability to understand and apply the interdisciplinary perspectives and methodologies, learned in their academic discipline and in the other five disciplines of the SPSF course, when addressing issues and presenting their ideas.

Curriculum policy

In accordance with the Diploma Policy, the Department of Education offers its curriculum as follows:

1. As with other departments of the Faculty of Human Sciences, the curriculum comprises university-wide general courses, language courses, and departmental major courses with an aim to achieve a harmonious combination of a broad knowledge base and discipline-specific expertise.
2. In order to enable students to examine educational issues from an international perspective while understanding the unique academic features of educational studies as an academic discipline, the Department of Education offers sub-discipline courses dealing with international dimensions of education, such as Comparative Education, International Education, and Education and International Development at the core, as well as courses in Philosophy of Education, Sociology of Education, and Curriculum and Instruction.
3. During the freshman and sophomore years, students are expected to enhance their critical thinking and communication skills, which will serve as the foundation of academic research skills. They are also expected to acquire basic knowledge, perspectives and methodologies relevant to educational studies.

During the junior year, students select a seminar based on what they have learned during their freshman and sophomore years, in order to acquire basic research methods as well as further hone their critical thinking, judgment and presentation skills. Students also decide on and pursue their own research topic, develop skills to examine phenomena from the perspectives of educational studies, seek pathways to solve problems in educational settings, and cultivate an attitude respectful of human dignity.

During the senior year, students engage in thesis research or a project in order to comprehensively and multifacetedly explore pathways to realize education respectful of human dignity, present their ideas clearly, and acquire the qualities and skills to persistently engage in problem-solving through constant self-reflection.

4. While students systematically and holistically learn the curriculum of educational studies, they will also explore sustainability issues from multiple perspectives by taking courses from other SPSF departments and hone their skills in social and human science research. Furthermore, students will be able to develop the qualities of a global citizen by taking courses offered by faculties and departments outside SPSF, participating in a study abroad program, internship, and social engagement programs such as a study tour overseas. In addition, students with a certain level of Japanese proficiency may take Japanese-medium courses as electives, provided they observe certain requirements, such as the maximum number of credits allowed.
5. In the Department of Education, creative teaching methods have been introduced to achieve more autonomous and dialogue-based learning. At lectures, students are often required to complete “reaction papers” to which the instructor will provide comments in the following class or offer a summary of students’ reactions to the lecture, based on which students will engage in further debate. Seminars will be centered on individual or group presentations and debates, and may involve working collaboratively with students and faculties of other universities in and/or outside Japan or conducting fieldwork in Japan and/or overseas. The final thesis defense and evaluation of graduation project outcomes will be open to other students and faculty, and is an opportunity to perform a creative and effective presentation to a large audience.
6. Learning progress and outcomes of individual students will be monitored and evaluated by using the combination of various evaluation criteria and methods, such as reaction papers and worksheets used in class, participation in and contribution to debates and group work, reports and examinations given at mid-term and end-of-term.

In addition to the above, the SPSF course constructs its curriculum in the following manner, for the purpose of achieving the common diploma policy across the six departments:

7. To enable the students during the first year to acquire a basic knowledge on “Sustainable Futures” and the relating issues through the SPSF General Studies Courses, drawing on the perspectives of six disciplines. Based on the acquired knowledge, the students will be able to deepen their understanding in various challenges related to the sustainable futures through Elective Courses in the University-wide General Studies Courses, and they will be also able to learn about the approaches, contents, and methodologies of the different disciplines through Specialized Courses offered by each department.
8. To enable students to gradually gain knowledge of the different disciplines of each Department and also acquire a wide range of knowledge through the courses offered by other faculties and departments which have been designated to offer Elective Compulsory Courses or Elective Courses. Thus, the students will be able to acquire the various perspectives, contents, and methodologies, as well as comprehensive approaches from the courses.

1. Courses and Minimum Number of Credits Required for Graduation

【For students who entered from 2022】

General Studies (Zengaku Kyotsu Kamoku)

- Compulsory: 8 credits (Studies in Christian Humanism: For Others, With Others, Liberal Arts of the Body: 1 Credit, Critical Thinking & Discussion, Overview of Data Science, Thinking about Issues, Perspectives and Positionality: 2 Credits)
- Compulsory electives: 6 credits (Studies in Christian Humanism: 2 Credits, Advanced General Education Courses: 4 Credits, (including SPSF Common Core: Theme Based "Third Year Seminar for Sustainable Futures" 2 credits)
- Electives: 12 credits (including SPSF Common Core: Theme Based "First Year Lecture in/about Sustainable Futures" 4 credits)

Language

- Compulsory: 4 credits (SPSF Common Core: Academic Writing 1&2)

Specialized Education (Gakka Kamoku)

- Compulsory: 23 credits
(including SPSF Common Core: Academic Skills 2 credits)
- Electives: 71 credits

Total: 124 credits are required for graduation.

※Electives in the Specialized Education category includes both Major Electives and Electives, which are described on page 137 of the Distribution of Required credits.

【For students who entered from 2020 to 2021】

General Studies (Zengaku Kyotsu Kamoku)

- Compulsory: 2 credits (Health and Physical Education: 2 credits)
- Compulsory electives: 4 credits (Studies in Christian Humanism: 4 credits)
- Electives: 20 credits
(including SPSF Common Core: Theme Based "First Year Lecture in/about Sustainable Futures", "Third Year Seminar for Sustainable Futures (Advanced General Education course)": 6 credits)

Language

- Compulsory: 4 credits (SPSF Common Core: Academic Writing 1&2: 4 credits)

Specialized Education (Gakka Kamoku)

- Compulsory: 23 credits
(including SPSF Common Core: Academic Skills: 4 credits)
- Electives: 71 credits

Total: 124 credits are required for graduation.

※Electives in the Specialized Education category includes both Major Electives and Electives, which are described on page 138 of the Distribution of Required credits.

2. Distribution of Required Credits

Please see page 137 - 138.

3. Guidelines for Course Registration

General Information for all SPSF students

SPSF General Guidelines

- ① Information on Department of Education Specialized Education - Major Compulsory and Major Elective courses
1. Major Compulsory courses are required to be taken in the applicable year, as specified in the Distribu-

tion of Required Credits.

2. If a student earns more than the required credits for Major Elective courses, they will be regarded as Electives in the Department of Education Specialized Education category and counted as graduation credits.
 3. During the third year, students are required to take two Undergraduate Seminars in Education (1~4).
 4. During the fourth year, students are required to take Research in Education 1 in the Autumn semester and Research in Education 2 in the Spring semester.
 5. Students are required to obtain at least 8 credits by taking Special Topics in Education (1~5).
 6. If students repeat the same course offered by the Department of Education more than once, then they will only receive graduation credits for one course and any other credits will not be counted.
- ② Information on Department of Education Specialized Education – Elective courses
1. Teaching Practice (教育実習 Kyouiku-jisshuu) is not included among the Electives.
 2. Students can take a maximum of 24 credits of Specialized Education Electives taught in Japanese for graduation credits.
 3. CLIL (Content and Language Integrated Learning) courses offered in English by the Center for Language Education and Research (CLER) will not be counted for graduation credits.
- ③ Information on Department of Education Specialized Education - Bachelor's Thesis / Bachelor's Graduation Project
1. Students are required to register for the Bachelor's Thesis / Bachelor's Graduation Project (5 credits). As a general rule, this course should be taken in the Spring semester of the final academic year. In the case of students planning to graduate in March, these courses can be taken in the Autumn semester. However, in such a case, students are required to consult the Academic Advisor prior to the course registration period.
 2. Credit recognition for the Bachelor's Thesis / Bachelor's Graduation Project will depend on the evaluation of a thesis paper or a project report, and an oral examination. Instructions for the format and submission of the thesis and the report, and the procedure for the oral examination will be specified separately.
 3. The Bachelor's Thesis / Bachelor's Graduation Project is a compulsory course, but it can be cancelled (W) provided that the prescribed procedure is taken.
- ④ Information on foreign language courses
1. A total of up to 16 credits for language courses, consisting of:
 - up to 8 credits for the General Studies category; and
 - up to 8 credits for Electives in the Specialized Education category
 will be regarded as graduation credits. Students do not need to choose the same language for these courses.
- ⑤ Course Numbering
- Numbering shown in the list of assigned courses refer to the following. For information about numbering, refer to p.24.

Field (alphabets)	Field (English)
EDU	Education
GRP	Bachelor's Thesis/Bachelor's Graduation Project

4. Information on early graduation

1. Early graduation refers to an enrollment period of at least 3 years and graduating at the end of the 3rd year or at the end of the Autumn semester in the 4th year, upon completion of prescribed procedures. The former is referred to as "graduation in September of the 3rd year" and the latter "graduation in March of the 4th year".
2. In order to graduate early, all of the following requirements must be fulfilled:
 - (1) The student must express intent to graduate early.

- (2) At the time of graduation, the student must have obtained all the credits for prescribed courses necessary for graduation.
 - (3) The Grade Point Average (hereafter referred to as “the GPA”) for the total number of credits obtained must be 3.5 or more.
3. When requesting early graduation, it is necessary to apply for “early graduation registration”.
- (1) In order to apply for early graduation registration, it is necessary to obtain 80 credits or more (of which at least 62 must be obtained at Sophia University) that count toward graduation by the end of the 2nd year. In addition, the GPA for the total number of credits obtained must be at least 3.5.
 - (2) Students who register for early graduation are required to take two Undergraduate Seminars in Education (1~4) and Research in Education 1~2 (total of 8 credits), and Bachelor’s Thesis / Bachelor’s Graduation Project (5 credits) by the time they graduate.
 - Students who wish to graduate in September of the 3rd year are required to take two Undergraduate Seminars (1~4) and Research in Education 1~2 simultaneously in the 3rd year. Also, students are required to register for the Bachelor’s Thesis / Bachelor’s Graduation Project in the Spring semester in the 3rd year.
 - Students graduating in March of the 4th year are required to take two Undergraduate Seminars (1~4) and Research in Education 1~2 by the Autumn semester of the 4th year. Also, as a general rule, students are required to register for the Bachelor’s Thesis / Bachelor’s Graduation Project in the Autumn semester of the 4th year.
 - (3) A student wishing to graduate early must submit an Application for Early Graduation Registration to the Office of Department of Education during the prescribed period in September of the 2nd year. At that time, it is necessary to obtain the approval stamp of the Academic Advisor.
 - (4) A student who registers for early graduation must consult the Department Chair or the Academic Advisor in advance and receive appropriate guidance.
 - (5) A student who registers for early graduation may not, as a general rule, take a leave of absence from school.
4. The procedures to change the graduation period and withdraw early graduation registration are as follows:
- (1) In the special case of a student wishing to graduate in September of the 3rd year, it is possible to change the time of early graduation to March of the 4th year. In this case, the approval stamp of the Academic Advisor must be affixed to the Notification of Change of Early Graduation Date, and this form must be submitted to the department office during the 1Q and 2Q course registration period in the Spring semester of the 3rd year.
 - (2) If a student who has registered for early graduation wishes to withdraw the registration, the approval stamp of the Academic Advisor must be affixed to Withdrawal of Application for Early Graduation Registration, and this form must be submitted to the department office. The respective periods of submission are:
 - for withdrawal of early graduation in September of the 3rd year: 1Q and 2Q course registration period, Spring semester of the 3rd year;
 - for withdrawal of early graduation in March of the 4th year: 3Q and 4Q course registration period, Autumn semester of the 4th year.
 - (3) When withdrawing early graduation registration, courses completed in the 3rd year which would normally be taken in the 4th year will be counted for graduation.

Department of Sociology SPSF Curriculum

Education and Research Objectives

To cultivate critical interest in human society, and the capacity to comprehend the mechanisms of social phenomena through the use of sociological approaches and empirical analysis.

Human Resource Development Objectives

To produce graduates equipped with sociological insights and methodological knowledge who are capable of employing an international outlook and humanitarian approach in proposing problem-solving solutions in practical settings.

Diploma Policy

With an aim to foster individuals with the following qualities to achieve a fair and equitable society that protects human dignity, the Department of Sociology sets the following standards for the skills and knowledge students should acquire before graduation. Those who fulfill the graduation requirements shall be deemed to have acquired these qualities and will be awarded a diploma.

1. An interest in various social issues and the ability to understand social phenomena through a sociological approach.
2. The ability to understand and analyze the mechanisms of social phenomena using basic theories and empirical methods.
3. The ability to understand the characteristics of the various dimensions of modern society as they relate to social structure and social change.
4. The ability to understand diverse others and to propose sociologically-informed solutions for creating an inclusive society.

In addition to the above, the SPSF course sets the following abilities which students should acquire before graduation as common requirements across its six departments (Department of Journalism, Department of Education, Department of Sociology, Department of Economics, Department of Management, Department of Global Studies).

5. The ability to acquire the basic knowledge on “Sustainable Futures” necessary to understand its importance, and to take action towards resolving challenges to the sustainable futures by drawing upon knowledge from their own academic discipline as well as from the other five disciplines in the SPSF course.
6. The ability to understand and apply the interdisciplinary perspectives and methodologies, which they studied in their own academic discipline and in the other five disciplines of the SPSF course, when addressing issues and presenting their ideas.

Curriculum Policy

In accordance with the Diploma Policy, the Department of Sociology’s curriculum consists of courses aligned with the following objectives.

1. Through small-group seminars, have students acquire basic sociological perspectives and knowledge of methodologies necessary for developing sociological research interests.
2. With regard to “theory and methods” as the basic tools of sociological analysis, have students acquire, through exposure to sociological theories, logical thinking skills and the ability to conceptualize a research interest and model its research design; and through quantitative or qualitative research skills acquired through courses in social survey methods, the ability to analyze social phenomena.
3. Teach students to apply the theoretical and methodological knowledge acquired to specific areas of modern society to deepen their understanding of the structure(s) and change(s) within such areas.
4. Foster the ability to develop research questions based on individual concerns, while maintaining a global outlook that respects human dignity, perform sophisticated analyses and engage in critical discussions.

In addition to the above, the SPSF course constructs its curriculum in the following manner, for the purpose of achieving the common diploma policy across the six departments:

5. Enable the students during the first year to acquire a basic knowledge on “Sustainable Futures” and the related issues through the SPSF General Studies Courses, drawing on the perspectives of six disciplines. Based on the

acquired knowledge, the students will be able to deepen their understanding of various challenges related to the sustainable futures through Elective Courses in the University-wide General Studies Courses. They will also be able to learn about the approaches, contents, and methodologies of the different disciplines through Specialized Courses offered by each department.

6. Enable students to gradually gain knowledge in the different disciplines of each Department and also acquire broader knowledge through the courses offered by other faculties and departments which have been designated to offer Elective Compulsory Courses or Elective Courses. Thus, students will be able to acquire the various perspectives, contents, and methodologies, as well as comprehensive approaches offered in the different courses.

1. Courses and Minimum Number of Credits Required for Graduation

【For students who entered from 2022】

General Studies (Zengaku Kyotsu Kamoku)

Compulsory:	8 credits (Studies in Christian Humanism: For Others, With Others, Liberal Arts of the Body: 1 Credit, Critical Thinking & Discussion, Overview of Data Science, Thinking about Issues, Perspectives and Positionality: 2 Credits)
Compulsory electives:	6 credits (Studies in Christian Humanism: 2 Credits, Advanced General Education Courses: 4 Credits (including SPSF Common Core: Theme Based "Third Year Seminar for Sustainable Futures" 2 credits)
Electives:	12 credits (including SPSF Common Core: Theme Based "First Year Lecture in/about Sustainable Futures" 4 credits)

Language

Compulsory:	4 credits (SPSF Common Core: Academic Writing 1 & 2)
-------------	--

Specialized Education (Gakka Kamoku)

Compulsory:	22 credits
Electives:	72 credits (including SPSF Common Core: Academic Skills: 2 credits, Major Core Category 2: 28 credits)

Total: 124 credits are required for graduation.

【For students who entered from 2020 to 2021】

General Studies (Zengaku Kyotsu Kamoku)

Compulsory:	2 credits (Health and Physical Education: 2 credits)
Compulsory electives:	4 credits (Studies in Christian Humanism)
Electives:	20 credits (including SPSF Common Core: Theme Based "First Year Lecture in/about Sustainable Futures", "Third Year Seminar for Sustainable Futures (Advanced General Education course)" 6 credits)

Language

Compulsory:	4 credits (SPSF Common Core: Academic Writing 1&2)
-------------	--

Specialized Education (Gakka Kamoku)

Compulsory:	22 credits
Electives:	72 credits (including SPSF Common Core: Academic Skills: 4 credits, Major Core Category 2: 26 credits)

Total: 124 credits are required for graduation.

2. Distribution of Required Credits

Please see page 147 - 148

3. Guidelines for Course Registration

① Language Courses

- (1) Academic Writing 1 & 2 are Compulsory Courses for 1st year students.

② SPSF Common Core (Academic Skills) Courses

- (1) Critical Thinking & Discussion and Academic Presentation are Compulsory Courses for 1st year students.

③ Major Courses in Sociology (listed as “Specialized Education” courses in the SPSF Bulletin)

Major Core Category 1: Compulsory Courses

- (1) Principles of Sociology, First Year Seminar in Sociology, and Quantitative Methods in Sociology are Compulsory Courses for 1st year students.
- (2) Sociological Theory 1 & 2, Qualitative Methods in Sociology, and Introduction to Statistics are Compulsory Courses for 2nd year students.
- (3) Advanced Seminar in Sociology is a Compulsory Course to be taken every semester by 3rd and 4th year students (total of 8 credits).
- (4) Students who wish to deepen their understanding of Sociological Theory and Methodology and who possess sufficient Japanese ability can take Sociological Theory I & II (社会学理論I&II) and Social Research Methods I & II (社会調査方法論I&II) as SE elective courses (held as part of the Sociology Department’s Japanese track course curriculum) provided that they notify their Academic Advisor and receive permission. These credits will be included in the maximum number of 24 credits that a student can obtain through courses taught in Japanese.

Major Core Category 2: Compulsory Elective Courses

- (1) SPSF Students are advised to prioritize taking Sociology courses held as part of the English track course curriculum in the Department of Sociology. The SPSF curriculum is designed so that the Department of Sociology’s Category 2 compulsory elective course credit requirement can be fulfilled through the Category 2 compulsory elective courses specified in the English track course curriculum. Because some Category 2 compulsory elective courses are not held every year, students should take note of the course numbering and carefully plan their course enrollment accordingly. Moreover, students who have sufficient Japanese ability to take the Compulsory Elective Courses in the Japanese track course curriculum (refer to the Japanese track course curriculum Academic Handbook) may do so and appropriate up to 10 credits to their Category 2 Compulsory Elective Courses requirement. These credits will be included in the maximum number of 24 credits that a student can obtain through courses taught in Japanese.
- (2) If the number of Category 2 Compulsory Elective Courses credits obtained exceeds 26 credits, the excess credits may be assigned as SE Electives for the purpose of graduation.

SE Electives

- (1) Credits from the SE elective courses specified in the English track course curriculum of the Department of Sociology may be appropriated for SE elective credits.
- (2) A maximum of 24 credits for compulsory elective and elective courses offered in the Japanese track course curriculum in the Department of Sociology can be appropriated for SE electives. However, when appropriating compulsory elective courses in the Japanese track course curriculum as graduation credits for Category 2 compulsory elective courses, those credits will be deducted from the maximum 24 credits that may be appropriated for SE electives.
- (3) If the research topic of a student coincides with that of Seminars (held as part of the Japanese track course curriculum in the Department of Sociology), and the Japanese ability of the student is sufficient to take the course, it is possible to appropriate up to 8 credits from the Japanese track course curriculum seminar for SE electives, provided that in January of the Autumn Semester of the student’s 2nd or 3rd year, the student notifies, and upon an interview with their Academic Advisor, receives permission from the department. These credits will be included in the maximum number of 24 credits that a student can obtain through courses taught in Japanese.
- (4) Credits for SE electives can be appropriated as credits for (1) Courses for Teacher & Curator Certification with course numbers starting with 62 (except “Teaching Practice 1, 2, 3 [教育実習] and “Museum Curator Field Work 1, 2 [博物館実習 1, 2]); (2) Language courses taught in English (Japanese, Chinese, French,

and Spanish; maximum 8 credits); and (3) General Studies courses taught in English (except “Compulsory [HPE]” and “Electives [Sports Practice courses]”; however, up to 12 credits may be appropriated as graduation credits).

④ General Studies

- (1) Please refer to p.108 of the Bulletin of Information regarding foreign languages in General Studies.

⑤ Bachelor’s Thesis

- (1) Students who wish to enter graduate school are advised to prepare and submit a bachelor’s thesis.
- (2) As a general rule, students are required to register for the “Bachelor’s Thesis” course (6 credits) held during the Spring Semester of their 4th year. However, students who expect to graduate in March may take this course during the Autumn Semester. When registering for the Autumn Semester, it is necessary to go to the Center for Academic Affairs counter during the course registration period.
- (3) Concerning the title of the bachelor’s thesis and the instructor a student would like to have as supervisor, it is necessary to submit a Bachelor’s Thesis Pre-registration Form to the Academic Advisor of the Department of Sociology at the Office of Human Sciences by the end of April in the 4th year (or end of October in the 4th year, in case of graduation in March).
- (4) The bachelor’s thesis must be written or typed from left to right on A4-sized paper, and must consist of at least 10,000 words. There are no rules on the number of lines per page or the length of each line.
- (5) Submission procedure
- Period/time To be posted on the Faculty and Department Office’s Loyola Bulletin Board
 - Place To be posted on the Faculty and Department Office’s Loyola Bulletin Board

⑥ Order for Taking Courses

As a general rule, as shown in the [Course 1] [Course 2] example below, Course 2 should be taken after completion of Course 1. In unavoidable circumstances, if students wish to take Course 2 before taking Course 1, it is necessary to obtain permission from their Academic Advisor. However, depending on the course or circumstance, this may not be possible.

[Course 1]	→	[Course 2]
Principles of Sociology	→	First Year Seminar in Sociology
Sociological Theory 1	→	Sociological Theory 2
Quantitative Methods in Sociology	→	Introduction to Statistics

⑦ Course Numbering

The numbering shown in the list of assigned courses refers to the following. For information about numbering, refer to p.24.

Field (alphabet)	Field (English)	Field (Japanese)
SOC	Sociology	社会学
GRP	Graduation Project	卒業論文

4. Early Graduation

- ① Early graduation refers to an enrollment period of at least 3 years and graduating at the end of the 3rd year or at the end of the Autumn Semester in the 4th year, upon the completion of prescribed requirements and procedures. The former is referred to as “graduation in September of the 3rd year” and the latter as “graduation in March of the 4th year.”
- ② In order to graduate early, all of the following requirements must be fulfilled.
- The student must wish to graduate early.
 - At the time of graduation, the student must have obtained all of the credits for the prescribed courses that are necessary for graduation.

- (3) The Grade Point Average (hereinafter referred to as “GPA”) for the total number of credits obtained must be 3.5 or higher.
- ③ When wishing to graduate early, it is necessary to register for early graduation.
- (1) In order to register for early graduation, it is necessary to obtain 80 credits or more (of which at least 62 must be obtained at Sophia University) that count toward graduation in prescribed courses by the end of the 2nd year. In addition, the GPA for the total number of credits obtained must be at least 3.2.
 - (2) A student who registers for early graduation must have taken the Advanced Seminar in Sociology (total of 8 credits) sequence by the time of graduation. A student wishing to graduate in September of the 3rd year must take 2 courses (4 credits) within the Advanced Seminar in Sociology sequence in the student’s 3rd year. Additionally, the student may apply up to 4 credits from the Japanese track course curriculum Seminars (students who do not possess sufficient Japanese ability must consult with their Academic Advisor upon selecting a seminar) to the credits earned from the Advanced Seminar in Sociology to achieve a total of 8 credits, provided that in January of the Autumn Semester of the student’s 2nd year, the student notifies, and upon an interview with their Academic Advisor, receives permission from the department. A student wishing to graduate in March of the 4th year must, as a general rule, take the Advanced Seminar in Sociology an overall of three times during the Autumn and Spring Semester of the 3rd year, and in the Autumn Semester of the 4th year. Additionally, during these three semesters, the student may apply up to 2 credits from the Japanese track course curriculum Seminars (students who do not possess sufficient Japanese ability must consult their Academic Advisor upon selecting a seminar) to the credits earned from the Advanced Seminar in Sociology to achieve a total of 8 credits, provided that the student notifies, and upon an interview with their Academic Advisor, receives permission from the department before the registration period of each semester.
 - (3) A student wishing to graduate early must submit an Application for Early Graduation Registration to the department office during the prescribed period in September of the 2nd year. At that time, it is necessary to obtain the signature or approval stamp of the instructor in charge of the seminars the student will be attending in the 3rd year.
 - (4) A student who registers for early graduation must consult their Academic Advisor in advance and receive appropriate guidance. Also, the student must report the progress of their studies to the instructor in charge of the seminar and receive guidance as required.
 - (5) When a student registers for early graduation, as a general rule, they must not be on a leave of absence from school.
- ④ Changes to one’s graduation date and withdrawal of early graduation registration will be carried out as follows:
- (1) In the special case of a student wishing to graduate in September of the 3rd year, it is possible to change the time of early graduation to March of the 4th year. In this case, the approval stamp of the Department Chair must be affixed to the Notification of Change of Early Graduation Date, and this form must be submitted to the department office during the 1Q and 2Q course registration period in the Spring Semester of the 3rd year.
 - (2) If a student who has registered for early graduation wishes to withdraw their early graduation registration, the approval stamp of the Department Chair must be affixed to the Withdrawal of Application for Early Graduation Registration, and this form must be submitted to the department office. The period of submission for withdrawal of early graduation in September of the 3rd year is during the 1Q and 2Q course registration period in the Spring Semester of the 3rd year, and for withdrawal of early graduation in March of the 4th year, it is during the 3Q and 4Q course registration period in the Autumn Semester of the 4th year.
 - (3) When withdrawing one’s early graduation application, courses completed in the 3rd year which would normally be taken in the 4th year will be included in the credits necessary for graduation. In this case, credits obtained in excess of 8 credits will be included in the elective required courses of the department.
 - (4) If a student withdraws their early graduation request for September of the 3rd year or March of the 4th year, it will be necessary to take the Advanced Seminar in Sociology courses in each of the semesters in the 4th year. In this case, seminars taken in the 4th year must be selected from seminars conducted by the instructor in charge during the 3rd year.
 - (5) When a student graduating in September of the 3rd year or March of the 4th year submits a bachelor’s thesis, it is necessary to register for the Bachelor’s Thesis course in the final semester of enrollment and submit the thesis by the deadline specified by the department. It is necessary to receive guidance from an instructor in charge of the seminar when writing a bachelor’s thesis.

Department of Economics SPSF Curriculum

Education and Research Objectives

To pursue in-depth study of fundamental Micro- and Macro-economic theory, through seminars, lectures and other types of small-class teaching, and to theoretically and empirically examine issues related to economics in contemporary society.

Human Resource Development Objectives

To produce graduates capable of applying economic concepts and tools to analyse contemporary social problems and phenomena; and of developing innovative ideas, utilising economic concepts, and analytical skills to critically examine global society.

Diploma Policy

The Department of Economics sets standards for the skills and knowledge that students are required to achieve prior to graduation. Those who fulfill the graduation requirements will be awarded a diploma, being deemed to have acquired the following:

1. In-depth understanding of the approaches and concepts used in Microeconomics and Macroeconomics, which constitute the core of economic theory; and the ability to explain the concepts in their own words.
2. The ability to develop models or conceptual frameworks based on knowledge of economics, in order to explain genuine issues in modern society and suggest viable approaches to solving the problems.
3. The ability to utilize economic knowledge and skills to perform statistical data analysis.
4. High-level communication and leadership skills that enable an appropriate contribution to be made to the global community.
5. High-level expertise that enable each student to become a leader in modern society in accordance with their own individual qualities and interests.

In addition to the above, the SPSF course sets the following abilities which students should acquire before graduation as common requirements across its six departments (Department of Journalism, Department of Education, Department of Sociology, Department of Economics, Department of Management, Department of Global Studies).

6. The ability to learn the basic knowledge on “Sustainable Futures,” to understand its importance, and to take action towards resolving challenges to the sustainable futures by drawing upon their academic discipline as well as from the other five disciplines in the SPSF course they learn.
7. The ability to understand and apply the interdisciplinary perspectives and methodologies, learned in their academic discipline and in the other five disciplines of the SPSF course, when addressing issues and presenting their ideas.

Curriculum Policy

For the purpose of achieving the requirements of the Diploma Policy, the Department of Economics has structured its curriculum as follows:

1. Students acquire fundamental knowledge of economic theory through Compulsory Courses (Introduction to Macroeconomics, Introduction to Microeconomics).
2. Students to gain logical thinking skills and develop models to describe and analyse socioeconomic phenomena through applied Microeconomics and/or Macroeconomics (which are Elective Compulsory Courses) .
3. Students acquire statistical analysis skills through data analysis courses (Introduction to Statistics, Introduction to Data Analysis)
4. Students are provided with the opportunity for group discussions and group learning through Active Learning Seminars and Seminars so that they acquire the communication skills necessary to enable problem solving in cooperation with others.
5. From a global perspective, a diverse range of Specialized Courses is offered (International Economics and Business, Environmental and Natural Resource Economics, Global Health Policies, Health Economics, International Finance, etc.) as Elective Compulsory Courses in order for students to deepen their understanding of applying economic theory to modern society.
6. Based on the fundamental knowledge required in the common goals described in the Diploma Policy and in

order to support students to acquire expertise while exploring their own individual qualities and interests, students are able to select various Specialized Courses, including courses offered by other departments and faculties, in addition to advanced economics courses.

In addition to the above, the SPSF course constructs its curriculum in the following manner, for the purpose of achieving the common diploma policy across the six departments:

7. To enable the students during the first year to acquire a basic knowledge on “Sustainable Futures” and the relating issues through the SPSF General Studies Courses, drawing on the perspectives of six disciplines. Based on the acquired knowledge, the students will be able to deepen their understanding in various challenges related to the sustainable futures through Elective Courses in the University-wide General Studies Courses, and they will be also able to learn about the approaches, contents, and methodologies of the different disciplines through Specialized Courses offered by each department.
8. To enable students to gradually gain knowledge of the different disciplines of each Department and also acquire a wide range of knowledge through the courses offered by other faculties and departments which have been designated to offer Elective Compulsory Courses or Elective Courses. Thus, the students will be able to acquire the various perspectives, contents, and methodologies, as well as comprehensive approaches from the courses.

1. Courses and Minimum Number of Credits Required for Graduation

【For students who entered from 2022】

General Studies (Zengaku Kyotsu Kamoku)

Compulsory: 8 credits (Studies in Christian Humanism: For Others, With Others, Liberal Arts of the Body: 1 Credit, Critical Thinking & Discussion, Overview of Data Science, Thinking about Issues, Perspectives and Positionality: 2 Credits)

Compulsory electives: 6 credits (Studies in Christian Humanism: 2 Credits, Advanced General Education Courses: 4 Credits (including SPSF Common Core: Theme Based "Third Year Seminar for Sustainable Futures" 2 credits)

Electives: 12 credits (including SPSF Common Core: Theme Based "First Year Lecture in/about Sustainable Futures" 4 credits)

Language

Compulsory: 4 credits (SPSF Common Core: Academic Skills “Academic Writing 1 & 2”)

Specialized Education (Gakka Kamoku)

Compulsory: 8 credits

Electives: 86 credits
(including SPSF Common Core: Academic Skills “Academic Presentations” 2 credits)

Total: 124 credits are required for graduation.

【For students who entered from 2020 to 2021】

General Studies (Zengaku Kyotsu Kamoku)

Compulsory: 2 credits (Health and Physical Education: 2 credits)

Compulsory electives: 4 credits (Studies in Christian Humanism)

Electives: 20 credits
(including SPSF Common Core: Theme Based “First Year Lecture in/about Sustainable Futures” and “Third Year Seminar for Sustainable Futures (Advanced General Education course)” 6 credits)

Language

Compulsory: 4 credits (SPSF Common Core: Academic Skills “Academic Writing 1 & 2”)

Specialized Education (Gakka Kamoku)

Compulsory: 8 credits

Electives: 86 credits (including SPSF Common Core: Academic Skills “Academic Presentations”, and “Critical Thinking & Discussion” 4 credits)

Total: 124 credits are required for graduation.

2. Distribution of Required Credits

Please see page 157.

3. Guidelines for Course Registration

Please read this Handbook carefully to find out about courses required for graduation and the minimum standards for the number of credits (Compulsory, Compulsory Electives, Electives), etc.

① Precautions regarding the number of credits required for Specialized Education (SE) courses

- (1) Students are advised to take as many Specialized Education (SE) courses specified in Major Core (Compulsory Electives) courses as possible.
- (2) When students have obtained the specified number of credits for graduation in Major Core (Compulsory Electives) courses, the excess amount will be regarded as SE Electives.
- (3) If students take the same course twice, they will only be able to count the credits they obtained for taking the course once toward graduation. The same course refers to; ① a course with the same title, and ② a course that is described in the Handbook as being considered to be the same course even if the title of the course is different.

② Precautions regarding the year of study

- (1) Students can register for any General Studies courses regardless of which year they are in except for Advanced General Education Courses.
- (2) Foreign Language courses and Language courses
Students are advised to take Language courses (SPSF Common Core (Academic Skills)) in the first year.
- (3) The year of study shown in the list of assigned courses and the numbering is the standard for the year of study for Specialized Education Compulsory Electives and Elective courses.
- (4) Seminars and Bachelor Thesis
 - SPSF students have the opportunity to take Japanese-style seminars and write a final Bachelor thesis.
 - Japanese-style seminars are small-size discussion classes taken during four consecutive semesters.
 - Two options for SPSF students:
 - “SPSF Seminars” series offered in English, SPSF Seminar: Microeconomics 1, 2, 3, and 4, and SPSF Seminar-Macroeconomics 1, 2, 3, and 4.
 - Japanese Track “Seminar (演習) 1,2, 3, 4”
- (5) Seminars require special registration at the beginning of the 2nd year.
- (6) Once the registration for seminars is completed, students cannot change their seminars.
- (7) Seminars, which can be either SPSF seminars or the Japanese Track seminars, are a precondition for writing a Bachelor thesis.
- (8) If students plan to take Seminars, it's necessary for students to get the approval of the professor in the Autumn semester of their second year.
- (9) If students plan to write Bachelor thesis under the supervision of professors in the Japanese Track seminar, they must receive explicit approval from them for thesis supervision at the time of registration.

③ Precautions regarding Specialized Education (SE) courses

- (1) Obtaining credits for courses other than courses described in the list of assigned courses:
 - a) When students have obtained credits for Compulsory Elective courses in the Economics Department Japanese Track course, a maximum of 8 credits can be counted as credits for SPSF Compulsory Elective courses.
 - b) If the number of credits for Compulsory Elective courses in the Economics Department Japanese Track course exceeds 8, up to 24 excess credits can be added to credits of SPSF Elective course.
 - c) Other Faculty/Department Courses, Courses for Teacher & Curator Certification with course numbers starting with 62, except “Teaching Practice 1, 2, 3 (教育演習 1,2,3)” and “Museum Curator Field Work 1, 2 (博物館実習 1,2)” and General Studies Course(s) – SAIMS Program course(s) are included as credits for SPSF Elective courses up to a maximum of 16 credits.
 - d) However, General Studies courses apart from the SAIMS Program cannot be included as credits for SPSF Elective courses.
- (2) Regarding prerequisite courses
 - a) Department of Economics students who take compulsory elective and specialized elective courses from the department should note that prior to enrollment it is highly recommended that they finish successfully

- complete “INTRODUCTION TO MICROECONOMICS”, “INTRODUCTION TO MACROECONOMICS”, and “INTRODUCTION TO STATISTICS”.
- b) Also, to enroll in Japanese Track courses shown in the table below, successful completion of 3 courses out of 4 following compulsory courses are required: “INTRODUCTION TO MICROECONOMICS”, “INTRODUCTION TO MACROECONOMICS”, “INTRODUCTION TO STATISTICS” and “INTRODUCTION TO DATE ANALYSIS”. These courses are called “prerequisite”
- c) Consultation with your academic advisor or the course instructor is advised.

Japanese Track Courses having Prerequisite Courses

選択必修科目 (B群)	計量経済学I 計量経済学II 国際貿易論I 国際貿易論II 金融論I 金融論II 財政学I 財政学II 経済発展論 公共経済学II 労働経済学I 労働経済学II 環境経済学	選択科目 (C-1群)	中級ミクロ経済学 中級マクロ経済学 公共政策I 公共政策II
----------------	--	----------------	---

- (3) Precautions related to Category A, B and C: Course Categories (Compulsory, Compulsory Electives, Electives) need to follow Handbook of the year in which the credits were obtained.

④ Handling Standards relating to Credit Recognition for Department of Economics courses taken by Students who changed Faculty/Department

A maximum of 20 credits are allocated for credit recognition for Department of Economics courses obtained by students before they changed Faculty/Department

⑤ Course Numbering

Numbering shown in the list of assigned courses refer to the following. For information about numbering, refer to p.24 in the Handbook.

Field (alphabets)	Field (English)	Field (Japanese)
ECN	Economics	経済学
MAN	Management	経営学
LAW	Law in general	法律一般
TCP	Teacher-training Course Program	教職科目

4. Early graduation

① Department of Economics Early Graduation System

Early graduation refers to an enrollment period of at least 3 years (excluding periods of absence), and graduating at the end of the 3rd year or at the end of the Autumn Semester in the 4th year, upon completion of prescribed procedures (hereinafter referred to as “graduation in September of the 3rd year” or “graduation in March of the 4th year”, respectively).

② In order to graduate early, all of the following requirements must be fulfilled.

- (1) The student must wish to graduate early.
- (2) At the time of early graduation, the student must have obtained all the credits for prescribed courses necessary for graduation.
- (3) The Grade Point Average (hereafter referred to as “the GPA”) for the total number of credits obtained must be 3.5 or more at the time of early graduation. GPA is calculated based on Sophia University Article 55.

- ③ When requesting early graduation, it is necessary to apply for early graduation registration.
- (1) In order to apply for early graduation registration, it is necessary to satisfy the following requirements:
 - a) Upon completion of the 2nd year, students are required to obtain at least 62 credits from Sophia University that count toward graduation.
 - b) The GPA for the abovementioned number of credits obtained is 3.0 or above.
 - (2) The procedures for registering a request for early graduation are as follows:
 - a) Students are required to receive an Application for Early Graduation Registration in the predetermined format at the Department of Economics Office.
 - b) After receiving an approval seal/signature from your seminar supervisor (hereinafter referred to as the “supervisor”. If you are not taking a seminar, receive a stamp from the Chairperson), submit the form to the Chairperson by the submission deadline.
 - (3) After registering a request for early graduation, it is necessary to receive course guidance from your supervisor, report your academic progress to the supervisor regularly and receive appropriate guidance.
- ④ Changes to the graduation period and withdrawal of early graduation registration will be carried out as follows:
- (1) To alter the period of a request for early graduation, it is necessary to receive an approval seal/signature from your supervisor on the prescribed Notice of Changes to Period of Request for Early Graduation, and submit it to the Chairperson by the submission deadline.
 - (2) To withdraw early graduation registration, it is necessary to receive an approval seal/signature from your supervisor on the prescribed Notice of Withdrawal of Registration of Request for Early Graduation, and submit it to the Chairperson by the deadline.
- ⑤ If a student wishing to graduate in September of the 3rd year as prescribed subsequently withdraws early graduation registration, he or she may register for early graduation in March of the 4th year in September of the 4th year provided that the Chairperson considers that special circumstances exist. If a student wishes to reregister, it is necessary to receive authorization from the Chairperson in advance and submit a re-application for Early Graduation Registration to the Chairperson.

For details, inquire at the Department of Economics Office (Room 2-1115a, 11th Floor, Building No. 2)

Documents to be Submitted	Submission Period	
Application for Early Graduation Registration	September of the 3 rd year	
Re-Application for Early Graduation Registration	March of the 4 th year	
Notice of Changes to Period of Request for Early Graduation	By the last day of the course registration period in the Autumn Semester of the 3rd year	
Notice of Withdrawal of Registration of Request for Early Graduation	In the case of cancellation of graduation in March of the 3rd year	Suspension period of 4th quarter courses in the Autumn Semester of the 3rd year
	In the case of cancellation of graduation in September of the 4th year	Suspension period of 2nd quarter courses in the Spring Semester of the 4th year

Department of Management SPSF Curriculum

Education and Research Objectives

To impart high-level expertise and broad general knowledge and cultivate a capacity to understand and practice management using a diversity of approaches in actual social engagement.

Human Resource Development Objectives

To produce individuals who understand management in its local and global social contexts, and who can contribute not only to corporate management but also to the local and international communities through rational decision-making grounded in specialist knowledge.

Diploma Policy

The Department of Management sets standards for the skills and knowledge students should acquire before graduation as follows. Those who fulfill the graduation requirements shall be deemed to have acquired these qualities and will be awarded a diploma.

1. The knowledge and skills required to appropriately analyze management environments that are undergoing globalization and increasing complexity.
2. The ability to understand and explain the approaches and concepts of Management Studies as well as specialized knowledge.
3. The ability to efficiently collect and process complex and diverse information and take the lead in solving issues challenging society.
4. The ability to respect differences and diversity, engage in open and fair discussion and communicate information, in order to make appropriate decisions under strict constraints
5. The ability to acquire high-level communication skills and contribute to problem-solving by taking the initiative in international forums.

In addition to the above, the SPSF course sets the following abilities which students should acquire before graduation as common requirements across its six departments (Department of Journalism, Department of Education, Department of Sociology, Department of Economics, Department of Management, Department of Global Studies).

6. The ability to learn the basic knowledge on “Sustainable Futures,” to understand its importance, and to take action towards resolving challenges to the sustainable futures by drawing upon their academic discipline as well as from the other five disciplines in the SPSF course they learn.
7. The ability to understand and apply the interdisciplinary perspectives and methodologies, learned in their 73 academic discipline and in the other five disciplines of the SPSF course, when addressing issues and presenting their ideas.

Curriculum Policy

With an aim to achieve the Diploma Policy, the Department of Management constitutes its curriculum as follows:

1. Have freshmen acquire the learning skills, fundamental understanding of specialized knowledge, communication skills, logical thinking, and social ethics required in promoting specialized learning in the Main Core Courses, “Introduction to Management 1” and “Introduction to Management 2.”
2. Have students deepen their expertise in Specialized Courses and Seminars, and have them acquire the ability to solve the issues challenging society today.
3. Aim to foster a self-motivated attitude towards learning and improve communication skills through small-group courses offered throughout the four years of enrollment.
4. Offer courses taught by experienced business managers and practitioners that foster a realistic and practical sense of management and/or teach business in practice.
5. To have students intensively improve their proficiency in English, the language commonly spoken internationally, through English Courses, and at the same time offer Foreign Language Courses in order to have them acquire other foreign language skills.

In addition to the above, the SPSF course constructs its curriculum in the following manner, for the purpose of achieving the common diploma policy across the six departments:

6. To enable the students during the first year to acquire a basic knowledge on “Sustainable Futures” and the

relating issues through the SPSF General Studies Courses, drawing on the perspectives of six disciplines. Based on the acquired knowledge, the students will be able to deepen their understanding in various challenges related to the sustainable futures through Elective Courses in the University-wide General Studies Courses, and they will be also able to learn about the approaches, contents, and methodologies of the different disciplines through Specialized Courses offered by each department.

7. To enable students to gradually gain knowledge of the different disciplines of each Department and also acquire a wide range of knowledge through the courses offered by other faculties and departments which have been designated to offer Elective Compulsory Courses or Elective Courses. Thus, the students will be able to acquire the various perspectives, contents, and methodologies, as well as comprehensive approaches from the courses.

1. Courses and Minimum Number of Credits Required for Graduation

【For students who entered from 2022】

General Studies (Zengaku Kyotsu Kamoku)

Compulsory: 8 credits (Studies in Christian Humanism: For Others, With Others, Liberal Arts of the Body: 1 Credit, Critical Thinking & Discussion, Overview of Data Science, Thinking about Issues, Perspectives and Positionality: 2 Credits)

Compulsory electives: 6 credits (Studies in Christian Humanism: 2 Credits, Advanced General Education Courses: 4 Credits (including SPSF Common Core: Theme Based "Third Year Seminar for Sustainable Futures" 2 credits)

Electives: 12 credits (including SPSF Common Core: Theme Based "First Year Lecture in/about Sustainable Futures" 4 credits)

Language

Compulsory: 4 credits (SPSF Common Core: Academic Skills "Academic Writing 1 & 2")

Specialized Education (Gakka Kamoku)

Compulsory: 4 credits

Electives: 90 credits (including SPSF Common Core: Academic Skills "Academic Presentations", 2 credits)

Total: 124 credits are required for graduation.

2. Distribution of Required Credits

Please see page 167.

3. Guidelines for Course Registration

Please read this Handbook carefully to find out about courses required for graduation and the minimum standards for the number of credits (Compulsory, Compulsory Electives, Electives), etc.

① Precautions regarding the number of credits required for Specialized Education (SE) courses

- (1) Students are advised to take as many Specialized Education (SE) courses specified in Major Core (Compulsory Electives) courses as possible.
- (2) When students have obtained the specified number of credits for graduation in Major Core (Compulsory Electives) courses, the excess amount will be regarded as SE Electives.
- (3) If students take the same course twice, they will only be able to count the credits they obtained for taking the course once toward graduation. The same course refers to; ① a course with the same title, and ② a course that is described in the Handbook as being considered to be the same course even if the title of the course is different.

② Precautions regarding the year of study

- (1) Students can register for any General Studies courses regardless of which year they are in except for Advanced General Education Courses.
- (2) Foreign Language courses and Language courses
Students are advised to take Language courses (SPSF Common Core (Academic Skills)) in the first year.
- (3) The year of study shown in the list of assigned courses and the numbering is the standard for the year of

study for Specialized Education Compulsory Electives and Elective courses.

- (4) Students who wish to take Japanese Track "Seminar 1, 2, 3, 4(演習 1,2,3,4)" are required to first apply through the Faculty of Economics office and to pass their advisor's examinations in the Autumn semester of their second year. Students should follow relevant guidance from the Faculty of Economics.

③Precautions regarding Specialized Education (SE) courses

- (1) Obtaining credits for courses other than courses described in the list of assigned courses:

- When students have obtained credits for Compulsory Elective courses in the Department of Management Japanese Track course, a maximum of 8 credits can be counted as credits for SPSF Compulsory Elective courses.
- If the number of credits for Compulsory Elective courses in the Department of Management Japanese Track course exceeds 8, up to 24 excess credits can be added to SPSF Elective course credits for graduation.
- Other Faculty/Department Courses, Courses for Teacher & Curator Certification with course numbers starting with 62, except "Teaching Practice 1,2,3 (教育実習 1,2,3) and "Museum Curator Field Work 1,2 (博物館実習 1,2) and General Studies Course(s) - SAIMS Program course(s) and データサイエンスプログラム基礎科目 (←2022 基盤の科目、名称及び科目詳細について検討中のため、決定後に英語名称を記載する) are included as credits for SPSF Elective courses up to a maximum of 12 credits.
- However, General Studies courses apart from the SAIMS Program cannot be included as credits for SPSF Elective courses.

- (2) Regarding prerequisite courses:

- Department of Management students who take compulsory elective and specialized elective courses from the Department of Economics should note that prior to enrolment it is highly recommended that they first successfully complete Economics compulsory courses "INTRODUCTION TO MICROECONOMICS" and "INTRODUCTION TO MACROECONOMICS". In addition, successful completion of course "INTRODUCTION TO STATISTICS" is also recommended.
- Likewise, for Japanese Track compulsory electives offered by the Department of Economics, completion of the above SPSF English language courses OR the Japanese Track courses 経済学総論I and 経済学総論II, which are available to Department of Management students, is highly recommended.
- Consultation with your academic advisor or the course instructor is advised.

- (3) Precautions related to Category A, B and C: Course Categories (Compulsory, Compulsory Electives, Electives) need to follow Handbook of the year in which the credits were obtained.

④Handling Standards relating to Credit Recognition for Department of Management courses taken by Students who changed Faculty/Department

A maximum of 20 credits are allocated for credit recognition for Department of Economics courses obtained by students before they changed Faculty/Department

⑤Course Numbering

Numbering shown in the list of assigned courses refer to the following. For information about numbering, refer to p.24 in the Handbook.

Field (alphabets)	Field (English)	Field (Japanese)
ECN	Economics	経済学
MAN	Management	経営学
ACC	Accounting	会計学
MRK	Marketing	マーケティング
MMI	Miscellaneous	経営学専攻共通

4. Early graduation

①Department of Management Early Graduation System

Early graduation refers to an enrollment period of at least 3 years (excluding periods of absence) and graduating at the end of the 3rd year or at the end of the Autumn Semester in the 4th year, upon completion of prescribed procedures (hereinafter referred to as "graduation in September of the 3rd year" or "graduation in March of the 4th

year”, respectively).

- ② In order to graduate early, all of the following requirements must be fulfilled.
- (1) The student must wish to graduate early.
 - (2) At the time of early graduation, the student must have obtained all the credits for prescribed courses necessary for graduation.
 - (3) The Grade Point Average (hereafter referred to as “the GPA”) for the total number of credits obtained must be 3.5 or more at the time of early graduation. GPA is calculated based on Sophia University Article 55.
- ③ When requesting early graduation, it is necessary to apply for early graduation registration.
- (1) In order to apply for early graduation registration, it is necessary to satisfy the following requirements:
 - a) Upon completion of the 2nd year, students are required to obtain at least 62 credits from Sophia University that count toward graduation.
 - b) The GPA for the abovementioned number of credits obtained is 3.0 or above.
 - (2) The procedures for registering a request for early graduation are as follows:
 - a) Students are required to receive an Application for Early Graduation Registration in the predetermined format at the Department of Management Office.
 - b) After receiving an approval seal/signature from your seminar supervisor (hereinafter referred to as the “supervisor”. If you are not taking a seminar, receive a seal/signature from the Chairperson), submit the form to the Chairperson by the submission deadline.
 - (3) After registering a request for early graduation, it is necessary to receive course guidance from your supervisor, report your academic progress to the supervisor regularly and receive appropriate guidance.
- ④ Changes to the graduation period and withdrawal of early graduation registration will be carried out as follows:
- (1) To alter the period of a request for early graduation, it is necessary to receive an approval seal/signature from your supervisor on the prescribed Notice of Changes to Period of Request for Early Graduation, and submit it to the Chairperson by the submission deadline.
 - (2) To withdraw early graduation registration, it is necessary to receive an approval seal/signature from your supervisor on the prescribed Notice of Withdrawal of Registration of Request for Early Graduation, and submit it to the Chairperson by the deadline.
- ⑤ If a student wishing to graduate in September of the 3rd year as prescribed subsequently withdraws early graduation registration, he or she may register for early graduation in March of the 4th year in September of the 4th year provided that the Chairperson considers that special circumstances exist. If a student wishes to reregister, it is necessary to receive authorization from the Chairperson in advance and submit a re-application for Early Graduation Registration to the Chairperson.

For details, inquire at the Department of Management Office (Room 2-1115a, 11th Floor, Building No. 2)

Documents to be Submitted	Submission Period	
Application for Early Graduation Registration	September of the 3 rd year	
Re-Application for Early Graduation Registration	March of the 4 th year	
Notice of Changes to Period of Request for Early Graduation	By the last day of the course registration period in the Autumn Semester of the 3rd year	
Notice of Withdrawal of Registration of Request for Early Graduation	In the case of cancellation of graduation in March of the 3rd year	Suspension period of 4th quarter courses in the Autumn Semester of the 3rd year
	In the case of cancellation of graduation in September of the 4th year	Suspension period of 2nd quarter courses in the Spring Semester of the 4th year

5. Distribution of Required Credits

Department of Global Studies SPSF Curriculum

Education and Research Objectives

To equip students, through systematic study of courses divided broadly into the categories of international relations and area studies, with (1) understandings of globality, (2) understandings of locality, (3) proficiency in multiple languages (English and regional languages), and (4) negotiating skills grounded in ethical awareness.

Human Resource Development Objectives

To produce graduates (international public intellectuals) capable of addressing both positive and negative facets of globalization, and contributing to the development of a collaborative society in which all people of the world move forward in partnership.

Diploma policy

The Faculty of Global Studies sets standards for the skills and knowledge that students who aim to become international public intellectuals seeking to achieve a fair society that protects human dignity in the globalizing world today. Those who fulfill the graduation requirements shall be deemed to have acquired these qualities and will be awarded a diploma.

1. An interest in social security, conflicts, poverty, development, immigrants, refugees, global environment, etc. and the ability to explain why such issues need to be solved globally.
2. The ability to understand the approaches and overall theory of international relations studies and area studies and consider issues from both perspectives combined.
3. The ability to shape problem-solving methodology analyze the positive and negative aspects of globalization in line with concrete case studies, using basic theories and demonstrative methods.
4. The ability to select two areas from International Relations Studies and Area Studies as disciplinary specialties and set up a research subject combining the two disciplines selected and perform research.
5. The ability to engage in dialogue with various others who live in different parts of the world and to cooperate in solving problems for the creation of an inclusive society.

In addition to the above, the SPSF course sets the following abilities which students should acquire before graduation as common requirements across its six departments (Department of Journalism, Department of Education, Department of Sociology, Department of Economics, Department of Management, Department of Global Studies).

6. The ability to learn the basic knowledge on “Sustainable Futures,” to understand its importance, and to take action towards resolving challenges to the sustainable futures by drawing upon their academic discipline as well as from the other five disciplines in the SPSF course they learn.
7. The ability to understand and apply the interdisciplinary perspectives and methodologies, learned in their academic discipline and in the other five disciplines of the SPSF course, when addressing issues and presenting their ideas.

Curriculum policy

In accordance with the Diploma Policy, the Department of Global Studies constructs its curriculum with courses aligned with the following purposes:

1. To have students study Global Studies and the basics of International Relations and Area Studies that support it in lectures, and thus acquire core theories and methodologies as well as fundamental research skills and approaches. 【Course numbers 100-199】
2. To have students understand the dynamics of international politics and economy, and learn in lectures about the mechanism of international cooperation and civil society, and thus prepare for selecting their specialties 【Course numbers 200-299】
3. To have students learn about Asia, the Middle East and Africa, etc. from the perspectives of history, culture, politics, economics, etc. in lectures and thus prepare for selecting their specialties. 【Course numbers 200-299】
4. To have students select two areas from International Relations Studies and Area Studies as their disciplinary specialties and have them conceptualize and implement solutions to global issues through lectures, etc. 【Lecture Course numbers 300-499】
5. To have students actively set up individual research questions regarding globalization issues and present relevant

research results in academic papers and other clear forms. 【Self-motivated research: 200-299; Seminars: 400-499; Thesis and research: 400-499】

6. To have students acquire a supportive attitude toward the theme-based research of other individuals through small-group seminars where they can deepen mutual understanding through debate. 【Basic Seminar numbers 100-199; Seminars 400-499】
7. To have students enhance their proficiency of English, the language commonly spoken internationally, and to have them acquire multilingual skills by encouraging them to learn foreign languages other than English. 【Lecture Course number 200-】

In addition to the above, the SPSF course constructs its curriculum in the following manner, for the purpose of achieving the common diploma policy across the six departments:

8. To enable the students during the first year to acquire a basic knowledge on “Sustainable Futures” and the relating issues through the SPSF General Studies Courses, drawing on the perspectives of six disciplines. Based on the acquired knowledge, the students will be able to deepen their understanding in various challenges related to the sustainable futures through Elective Courses in the University-wide General Studies Courses, and they will be also able to learn about the approaches, contents, and methodologies of the different disciplines through Specialized Courses offered by each department.
9. To enable students to gradually gain knowledge of the different disciplines of each Department and also acquire a wide range of knowledge through the courses offered by other faculties and departments which have been designated to offer Elective Compulsory Courses or Elective Courses. Thus, the students will be able to acquire the various perspectives, contents, and methodologies, as well as comprehensive approaches from the courses.

1. Courses and Minimum Number of Credits Required for Graduation

【For students who entered from 2022】

General Studies (Zengaku Kyotsu Kamoku)

- | | |
|-----------------------|--|
| Compulsory: | 8 credits (Studies in Christian Humanism: For Others, With Others, Liberal Arts of the Body: 1 Credit, Critical Thinking & Discussion, Overview of Data Science, Thinking about Issues, Perspectives and Positionality: 2 Credits) |
| Compulsory electives: | 6 credits (Studies in Christian Humanism: 2 Credits, Advanced General Education Courses: 4 Credits (including SPSF Common Core: Theme Based "Third Year Seminar for Sustainable Futures" 2 credits) |
| Electives: | 12 credits
(including SPSF Common Core: Theme Based "First Year Lecture in/about Sustainable Futures" 4 credits) |

Language

Specialized Education (Gakka Kamoku)

Compulsory: 12 credits

Electives: 82 credits (including SPSF Common Core: Academic Skills 4 credits, Core Category 2 52 credits)

Total: 124 credits are required for graduation.

※The above Course Classification Elective includes both Compulsory Electives and Electives, which are described on page 178 of the Distribution of Required Credits.

2. Distribution of Required Credits

Please see page 178

3. Major and Minor

There are 2 fields of study: International Relations and Area Studies. Students are required to choose one field as their Major and the other as their Minor.

4. Guidelines for Course Registration

① Language courses

(1) English

For information about the English Language course (SPSF Common Core (Academic Skills)), refer to p.115 of the Bulletin of Information.

(2) Languages other than English

Regardless of your Major or Minor, students are strongly advised to take courses in a language other than their native language (students whose native language is not Japanese are recommended to take Japanese Language Courses).

② Specialized Education courses

(1) Selecting your Major and Minor

Confirmation time and application method for your Major and Minor

[Application] Make an application on Loyola for your Major, Minor, your desired seminar and your research issue (250 words).

[Registration] Once your Major and Minor are confirmed, the Center for Academic Affairs will fix the registration prior to the course registration period in the Autumn Semester of the 3rd year. By doing so, the graduation requirements of each student will be confirmed.

[Change of Major]

- Change Procedure

a) Students who wish to change their Major can do so once in the course registration period in the Autumn Semester of the final year of enrollment only if they have an exceptional reason and provided they receive a decision from a faculty meeting. Students who request a change must receive approval from their seminar supervisor and submit the prescribed application to the Department Office approximately one month prior to the course registration period in the Autumn Semester of the final year. A change of Major will necessitate a change of Minor.

b) Credits for a seminar obtained prior to a change of Major may be included in credits necessary for graduation (allocated as Specialized Education Electives) but they may not be counted as the 4 seminar credits of Specialized Education Compulsory Electives. Consequently, it is necessary to obtain 4 credits from the Major after the change.

(2) Regarding course years: Students must comply with course years described in the Standard allocation list and the list of assigned courses. First year students cannot take courses in the 300 series and first year students and second year students cannot take courses in the 400 series.

(3) Course precautions

• SPSF students cannot take the 7 Compulsory (必修) Course(s) offered in own Department's Japanese Track (グローバル・スタディーズ入門、地域研究入門、国際関係論入門、グローバル・スタディーズ基礎演習、自主研究、演習 and 卒業論文.)

• In the case of Courses taught in Japanese, a total of 24 credits may be counted toward graduation. Specifically, credits earned may be applied to (1) language courses among Elective courses in General Studies, (2) Core Category 2 (Compulsory Electives) courses, and (3) FGS Electives in Specialized Education.

• If you want to take a courses taught in Japanese in the category of Specialized Education, choose courses from the following subject groups.

200-level: 学部基礎科目 (選択必修科目) 200シリーズ; GS = グローバル研究共通科目群, IR = 国際関係論共通科目群, AS = 地域研究共通科目群

300-level: 学部専門科目 (選択必修科目) 300シリーズ

400-level: 学部応用科目 (選択必修科目) 400シリーズ; IR = 国際政治論科目群、および市民社会・国際協力論科目群; AS = アジア研究科目群、および中東・アフリカ研究科目群

• If SPSF students take courses offered in FGS Japanese Track, which is incorporated from other departments, they will be included in the graduation requirement according to the course classification of the Japanese track.

(4) Independent Studies: At any stage from the 2nd year to the 4th year, 2 credits per semester (one credit per Quarter in the case of Quarter courses) can be obtained, making a maximum of 12 credits in six semesters.

[Registration]

- a) Students who wish to take this course are required to have an interview with a supervisor in the semester prior to commencing research and obtain permission for their research plan.
- b) Students are required to receive the seal of the supervisor on the prescribed application form and submit it to the department office during the course registration period in the semester in which they begin the course.
- c) Students are required to register for courses on Loyola during the course registration period in each semester.
- d) As a general rule, Independent Studies Quarter courses are targeted at students who are going to study abroad or who have studied abroad. Such students are required to register for courses in the Quarter immediately before they depart or immediately after they return.
- e) Independent Studies Quarter courses cannot be taken for 2 Quarters continuously.

(5) Seminars

- a) As a general rule, students are required to obtain 4 credits in the 3rd year. Students who cannot obtain all these credits in the 3rd year due to study abroad or absence from school are required to take courses in the 3rd and 4th years.
- b) Students are required to select either Seminar (International Relations) or Seminar (Area Studies), which are held in English, according to their Major.
- c) The major area of study is determined by the placement of the seminar course. Not all students can be placed in the seminar course of their first choice because of the limited number of students in the seminar courses. For this reason, your major and minor areas to be determined may not be areas to be as you requested.
- d) If more than 4 seminar credits are obtained, the extra credits up to 4 credits can be included in the 22 credits that should be obtained in the area of the student's Major. If you earn exceeding 8 seminar credits, the credits will be included as Electives.
- e) Seminar credits cannot be obtained by transferring credits obtained during study abroad.
- f) SPSF students cannot take seminars offered in Japanese, as a general rule (also not possible to take them as Electives).

[Application and Registration on Loyola]

- a) The application period is provided at the beginning of May in the 2nd year.
Application period: May 2 (Mon), 2022~May 5 (Wed) 23:59
- b) Students are required to apply for their Major, Minor and their research issue (250 words) on Loyola May in the 2nd year.
- c) Students are required to register their confirmed Major seminar without fail in the Autumn course registration period in the 3rd year.
- d) When withdrawing a seminar course (W), students are required to obtain the approval of the Chairperson.

(6) Bachelor's Thesis

As a general rule, students are required to register for Bachelor's Thesis 1 (2 credits) in the Autumn Semester of the 4th year and Bachelor's Thesis 2 (2 credits) in the Spring Semester of the 4th year on Loyola in the same way as other courses, and create a Thesis or a Project.

- a) A Thesis of approximately 6,000 words is required to be written in English.
- b) A Project is required to be a project other than a thesis that requires the same degree of intellectual activity as a) above.
- c) The submission of a Thesis will be accepted provided that 4 seminar credits are obtained or are expected to be obtained by the submission semester.
- d) P (Pass) and X (Fail) are used to evaluate Bachelor's Thesis 1.
- e) In the semester a student takes Bachelor's Thesis 1, he or she is required to submit a "Title Registration Form" (60~120 words) and a "Research Plan" (600 words or more) to the instructor in charge of the seminar.
- f) If a student cannot obtain credits for Bachelor's Thesis 1, he or she cannot take Bachelor's Thesis 2. However, if there is a special reason such as study abroad, a student may be allowed to take Bachelor's Thesis 1 and Bachelor's Thesis 2 simultaneously in one semester (prior approval by the Chairman is required).

As a general rule, in such a case, students who expect to graduate within 4 years can only do so if they participate in "Overseas Study (excluding absence from school)" in the Autumn Semester of the 4th year and take these courses simultaneously in the Spring Semester of the 4th year.

Students who take Bachelor's Thesis 1 and Bachelor's Thesis 2 simultaneously in one semester are required to consult each of their supervisors concerning the submission deadlines for the "Title Registration Form" and the "Research Plan."

- g) SPSF students cannot study for the Bachelor's Thesis (卒業論文・卒業研究) taught in Japanese.

(7) Courses in other faculties

A maximum of 26 credits (for students who entered from 2020 to 2021) or 28 credits (for students who entered from 2022) for FGS courses, Faculty of Foreign Studies courses, Faculty of Liberal Arts courses, Courses for Teacher & Curator Certification with course numbers starting with 62, except "Teaching Practice 1, 2, 3 (教育実習 1,2,3) and "Museum Curator Field Work 1, 2 (博物館実習) and Courses offered by CLER can be included in FGS Electives required for graduation. In the case of courses offered by other faculties and departments, a maximum of 8 credits may be counted toward graduation.

(8) Recognition and conversion of credits for courses obtained at other Universities

Refer to p.44 of the Bulletin of Information regarding Transfer of Credits Earned before Entering as a First year student and the Procedure for Transfer of Credits for students studying abroad.

(9) Courses that students from other faculties may not take

1. Students other than SPSF students cannot take the 100 series lecture courses.
2. Students from other faculties and departments cannot take the 400 series seminar courses.

(10) The Loyola Bulletin Board

A variety of application forms are posted on the Loyola Announcement Bulletin Board: Faculty and Department Office. Download and use them as needed.

5. Early Graduation System

1. Early graduation refers to an enrollment period of at least 3 years, and graduating at the end of the 3rd year or at the end of the Autumn Semester in the 4th year, upon completion of prescribed procedures. The former is referred to as graduation in September of the 3rd year and the latter graduation in March of the 4th year.
2. In order to graduate early, all of the following requirements must be fulfilled.
 - (1) The student must wish to graduate early.
 - (2) At the time of graduation, the student must have obtained all the credits for prescribed courses necessary for graduation.
 - (3) The Grade Point Average (hereafter referred to as "the GPA") for the total number of credits obtained must be 3.7 or more.
3. When requesting early graduation, it is necessary to apply for early graduation registration.

- (1) In order to apply for early graduation registration, it is necessary to obtain 80 credits or more (of which at least 62 must be obtained at Sophia University) that count toward graduation in prescribed courses by the end of the 2nd year. In addition, the GPA for the total number of credits obtained must be at least 3.7.
 - (2) A student who registers for early graduation must have taken 4 seminar credits by the time of graduation.
 - (3) A student wishing to graduate early must submit an Application for Early Graduation Registration to FGS office during the course registration period in the Autumn Semester of the 3rd year. On the Application, it is necessary to obtain the approval stamp of the instructor in charge of the seminar you will be attending.
 - (4) A student who registers for early graduation must consult the Chairperson or the instructor in charge of the seminar in advance and receive appropriate guidance. Also, the student must report the progress of his/her studies to the supervisor and receive guidance as required.
 - (5) A student who registers for early graduation may not as a general rule take a leave of absence.
4. For changes to the graduation period and withdrawal of early graduation registration, the following procedures must be followed:
- (1) In the special case of a student wishing to graduate in the end of the 3rd year, it is possible to change the time of early graduation. In this case, the approval stamp of the instructor in charge of the seminar must be affixed to the Notice of Changes to Period of Request for Early Graduation, and this form must be submitted to FGS office during the course registration period in the Spring Semester of the 3rd year.
 - (2) If a student who has registered for early graduation wishes to withdraw early graduation registration, the approval stamp of the instructor in charge of the seminar must be affixed to the Notice of Withdrawal of Registration of Request for Early Graduation, and this form must be submitted to FGS office by the date determined separately.
 - (3) When withdrawing early graduation application, courses completed in the 3rd year which would normally be taken in the 4th year will be included in the credits necessary for graduation.

Documents to be Submitted	Submission Period
Application for Early Graduation Registration	Course registration period in the Autumn Semester of the 3 rd year
Notice of Changes to Period of Request for Early Graduation	Course registration period in the Spring Semester of the 3 rd year
Notice of Withdrawal of Registration of Request for Early Graduation: the end of the 3 rd Year	Course registration period in the Spring Semester of the 3 rd year
Notice of Withdrawal of Registration of Request for Early Graduation: March of the 4 th Year	Course registration period in the Autumn Semester of the 4 th year
